

- Section 1 Organization and Management of the Maintenance Function
- Chapter 1 Introduction to the Theory and Practice of Maintenance
- Chapter 2 Operating Policies of Effective Maintenance
- Chapter 3 Area and Centralized Maintenance Control
- Chapter 4 Operating Practices to Reduce Maintenance Work
- Chapter 5 Incentive Payment of Maintenance Workers
- Chapter 6 Reports from Maintenance
- Chapter 7 Maintenance Skills Training
- Section 2 The Horizons of Maintenance Management
- Chapter 1 Corrective Maintenance
- Chapter 2 Components of Effective Preventive Maintenance
- Chapter 3 Predictive Maintenance
- Chapter 4 Maintenance Work Order Planning
- Chapter 5 An Introduction to the Computer in Maintenance
- Chapter 6 Computerized Planning and Scheduling
- Chapter 7 Maintenance Stores and Inventory Control
- Chapter 8 Maintenance Storerooms
- Chapter 9 Internet for Maintenance and Engineering
- Section 3 Establishing Costs and Control
- Chapter 1 Economics of Preventive Maintenance
- Chapter 2 Work Measurement
- Chapter 3 Rating and Evaluating Maintenance Workers
- Chapter 4 Work Simplification in Maintenance
- Chapter 5 Estimating Repair and Maintenance Costs
- Section 4 Maintenance of Plant Facilities
- Chapter 1 Maintenance of Low-Sloped Membrane Roofs
- Chapter 2 Concrete Industrial Floor Surfaces: Design, Installation, Repair, and Maintenance
- Chapter 3 Painting and Protective Coatings
- Chapter 4 Maintenance and Cleaning of Brick Masonry Structures
- Chapter 5 Maintenance of Elevators and Special Lifts
- Chapter 6 Air-Conditioning Equipment
- Chapter 7 Ventilating Fans and Exhaust Systems
- Chapter 8 Dust-Collecting and Air-Cleaning Equipment
- Chapter 9 Piping
- Chapter 10 Scaffolds and Ladders
- Section 5 Maintenance of Mechanical Equipment
- Chapter 1 Plain Bearings
- Chapter 2 Rolling-Element Bearings
- Chapter 3 Flexible Couplings for Power Transmission
- Chapter 4 Chains for Power Transmission
- Chapter 5 Cranes: Overhead and Gantry
- Chapter 6 Chain Hoists
- Chapter 7 Belt Drives
- Chapter 8 Mechanical Variable-Speed Drives
- Chapter 9 Gear Drives and Speed Reducers

- Chapter 10 Reciprocating Air Compressors
- Chapter 11 Valves
- Chapter 12 Pumps: Centrifugal and Positive Displacement
- Section 6 Maintenance of Electrical Equipment
- Chapter 1 Electric Motors
- Chapter 2 Maintenance of Motor Control Components
- Chapter 3 Maintenance of Industrial Batteries (Lead-Acid, Nickel-Cadmium, Nickel-Iron)
- Chapter 4 Illumination
- Section 7 Sanitation and Housekeeping
- Chapter 1 Organizing the Sanitation-Housekeeping Personnel
- Chapter 2 Maintaining Plant Sanitation and Housekeeping
- Chapter 3 Industrial Housekeeping
- Chapter 4 Cleaning Industrial Plant Offices
- Section 8 Instruments and Reliability Tools
- Chapter 1 Mechanical Instruments for Measuring Process Variables
- Chapter 2 Electrical Instruments for Measuring, Servicing, and Testing
- Chapter 3 Vibration: Its Analysis and Correction
- Chapter 4 An Introduction to Thermography
- Chapter 5 Tribology
- Section 9 Lubrication
- Chapter 1 The Organization and Management of Lubrication
- Chapter 2 Lubricating Devices and Systems
- Chapter 3 Planning and Implementing a Good Lubrication Program
- Section 10 Maintenance Welding
- Chapter 1 Arc Welding in Maintenance
- Chapter 2 Gas Welding in Maintenance
- Section 11 Chemical Corrosion Control and Cleaning
- Chapter 1 Corrosion Control
- Chapter 2 Industrial Chemical Cleaning Methods
