

## Table of contents

- **Part 1 Calculations of Water Quality Assessment and Control**
- **Chapter 1.1 Basic Science and Fundamentals**
- **Chapter 1.2 Streams and Rivers**
- **Chapter 1.3 Lakes and Reservoirs**
- **Chapter 1.4 Groundwater**
- **Chapter 1.5 Fundamental and Treatment Plant Hydraulics**
- **Chapter 1.6 Public Water Supply**
- **Chapter 1.7 Wastewater Engineering**
- **Appendices**
- **Part 2 Solid Waste Calculations**
- **Chapter 2.1 Thermodynamics used in Environmental Engineering**
- **Chapter 2.2 Basic Combustion and Incineration**
- **Chapter 2.3 Practical Design of Waste Incineration**
- **Chapter 2.4 Calculations for Permitting and Compliance**
- **Chapter 2.5 Calculational Procedures for Ash Stabilization and Solidification**
- **Chapter 2.6 Incineration Technologies and Facility Requirements**
- **Part 3 Air Pollution Control Calculations**
- **Chapter 3.1 Air Emission Control**
- **Chapter 3.2 Particulate Emission Control**
- **Chapter 3.3 Wet and Dry Scrubbers for Emission Control**
- **Index**
