

Table of contents provided by Syndetics

- **What Is Numerical Analysis?**
- **The Collocation Polynomial**
- **Finite Differences**
- **Factorial Polynomials**
- **Summation**
- **The Newton Formula**
- **Operators and Collocation**
- **Polynomials**
- **Unequally-Spaced Arguments**
- **Splines**
- **Osculating Polynomials**
- **The Taylor Polynomial**
- **Interpolation**
- **Numerical Differentiation**
- **Numerical Integration**
- **Gaussian Integration**
- **Singular Integrals**
- **Sums and Series**
- **Difference Equations**
- **Differential Equations**
- **Differential Problems of Higher Order**
- **Least-Squares Polynomial Approximation**
- **Min-Max Polynomial Approximation**
- **Approximation By Rational Functions**
- **Trigonometric Approximation**
- **Nonlinear Algebra**
- **Linear Systems**
- **Linear Programming**
- **Overdetermined Systems**
- **Boundary Value Problems**
- **Monte Carlo Methods**
