

- Preface p. xi
- List of Figures p. xv
- List of Tables p. xix
- Part 1 Principles of Telecommunications Management and Planning p. 1
- Chapter 1 Introduction to Telecommunications Management p. 3
 - The Job of Telecommunications Management p. 5
- Chapter 2 The Telecommunications Act of 1996 p. 15
 - Introduction to the Telecommunications Act p. 16
 - Effects of the Telecommunications Act of 1996 p. 25
 - Summary p. 27
- Chapter 3 Telecommunications Strategic Planning p. 29
 - Strategic Telecommunications Planning p. 29
 - Planning for New Technologies p. 43
 - Summary p. 52
- Chapter 4 Current and Long-Range Planning p. 53
 - Overview of the Problem-Solving Process p. 54
 - The Telecommunications System Planning Process p. 55
 - Fundamental Planning p. 60
 - Documenting and Presenting the Plan p. 63
 - Current Planning Techniques p. 66
 - Summary p. 69
- Chapter 5 Feasibility Analysis p. 71
 - Financial Evaluation Techniques p. 72
 - Use of a Personal Computer in Feasibility Studies p. 84
 - Feasibility Study: A Case History p. 86
 - Selling the Plan to Higher Management p. 97
 - Summary p. 99
- Chapter 6 Forecasting Telecommunications Services p. 101
 - Why Forecast? p. 102
 - Sources of Forecast Information p. 107
 - Forecasting Methods p. 110
 - Case History: Forecasting Call Center Workload Requirements p. 116
 - Summary p. 122
- Part 2 Selecting Telecommunications Services and Equipment p. 123
- Chapter 7 Developing Requirements and Specifications p. 125
 - Developing Requirements and Specifications p. 126
 - Developing Requirements: Sources of Information p. 126
 - Types of Specifications p. 133
 - Summary p. 135
- Chapter 8 Writing Requests for Proposals p. 137
 - Purpose of an RFP p. 138
 - When to Use an RFP p. 140
 - Elements of an RFP p. 141
 - How to Prepare an RFP p. 150
 - Validating the RFP p. 151
 - Alternatives to the RFP p. 152

- Summary p. 153
- Chapter 9 Evaluating Responses to Requests for Proposals p. 155
 - Overview of the Product Selection Process p. 156
 - Life-Cycle Analysis: A Case Study p. 165
 - Technical Evaluation p. 171
 - Choosing the Product p. 176
 - Summary p. 176
- Chapter 10 Managing Long-Distance Services p. 177
 - Principles of Long-Distance Service Selection p. 178
 - Long-Distance Alternatives p. 183
 - Toll-Free Service p. 187
 - Other Long-Distance Services and Issues p. 189
 - IXC Selection Considerations p. 199
 - Summary p. 200
- Chapter 11 Selecting Local Exchange Services
 - Precompetitive Local Networks p. 202
 - Competitive Local Networks p. 203
 - LEC Selection Considerations p. 210
 - Summary p. 219
- Chapter 12 Managing Internet Services p. 221
 - ISP Architectures p. 223
 - Evaluating ISP Service p. 228
 - ISP Selection Considerations p. 229
 - Summary p. 234
- Chapter 13 Wiring Plans and Equipment Rooms p. 235
 - Wiring Media p. 236
 - Structured Wiring System Standards p. 240
 - Building Entrance Cabling p. 248
 - Equipment Rooms p. 252
 - Backbone Cable p. 254
 - Vendor Selection Considerations p. 263
 - Summary p. 265
- Part 3 Managing Telecommunications Facilities p. 267
- Chapter 14 Managing PBX and Key Telephone Equipment p. 269
 - Differences in Switching System Types p. 271
 - Major PBX System Features p. 273
 - PBX Administration p. 286
 - Selecting Key Telephone Systems p. 288
 - Switching System Selection Considerations p. 289
 - Summary p. 291
- Chapter 15 Managing Automatic Call Distributors p. 293
 - Elements of Automatic Call Distribution Systems p. 296
 - Major ACD System Features p. 301
 - Setting Call Center Objectives p. 305
 - The ACD Process p. 310
 - ACD Management Information Systems p. 312

- Computer-Telephone Integration p. 315
- Web Site Integration p. 316
- ACD Selection Considerations p. 317
- Summary p. 320
- Chapter 16 Managing Voice Processing Equipment p. 323
 - Voice Mail p. 324
 - Automated Attendant p. 333
 - Interactive Voice Response p. 334
 - Fax on Demand p. 336
 - Speech Recognition p. 337
 - Voice Processing Selection Considerations p. 337
 - Summary p. 341
- Chapter 17 Managing Local Area Networks and Internets p. 343
 - Local Area Network Operating Systems p. 344
 - Local Area Network Hardware p. 347
 - Managing Local Area Network Internets p. 352
 - Local Area Network Facility Selection Considerations p. 363
 - Summary p. 369
- Chapter 18 Managing Wide Area Networks p. 371
 - Data Network Alternatives p. 372
 - Wide Area Network Selection Considerations p. 386
 - Summary p. 398
- Chapter 19 Managing Video and Audio Conferencing Equipment p. 399
 - Video Standards p. 400
 - Videoconferencing Equipment p. 402
 - Network Requirements for Videoconferencing p. 405
 - Videoconferencing Administration p. 408
 - Audio Conferencing p. 409
 - Conferencing System Selection Considerations p. 411
 - Summary p. 413
- Chapter 20 Managing Convergence p. 415
 - Convergence Alternatives p. 417
 - Justifying the Converged Network p. 422
 - Convergence Selection Considerations p. 425
 - Summary p. 426
- Part 4 Telecommunications Cost Control p. 427
- Chapter 21 Controlling Telecommunications Costs p. 429
 - Telecommunications Bill Processing p. 431
 - Auditing Telecommunications Bills p. 435
 - Auditing Interexchange Carrier Bills p. 442
 - Budgeting p. 445
 - Controlling Maintenance Costs p. 448
 - Controlling Rearrangement Costs p. 449
 - Buying from the Secondary Market p. 449
 - Call Accounting Systems p. 451
 - Call Accounting Selection Considerations p. 455

- PBX Features for Controlling Costs p. 460
- Summary p. 462
- Chapter 22 Benchmarking Telecommunications Results p. 463
- Benefits of Benchmarking p. 464
- How to Begin p. 465
- Administrative Costs p. 472
- Choosing Benchmarking Partners p. 473
- Capitalizing on the Process p. 474
- Summary p. 474
- Chapter 23 Contracting and Outsourcing p. 477
- Equipment Purchases p. 478
- Contracting for Consulting Services p. 483
- Long-Distance Contracts p. 493
- Procuring Installation, Maintenance, and Administrative Services p. 494
- Outsourcing p. 497
- Summary p. 500
- Chapter 24 Sizing and Optimizing Voice Circuits p. 501
- Fundamentals of Traffic Engineering p. 502
- Sources of Traffic Usage Information p. 520
- Case Study: Using Traffic Theory to Optimize Local Trunks p. 524
- Summary p. 527
- Chapter 25 Optimizing Data Network Bandwidth p. 529
- Internetworking Design p. 532
- Network Quality of Service p. 536
- Summary p. 543
- Part 5 Operations Planning and Execution p. 545
- Chapter 26 Developing a Telecommunications Operations Plan p. 547
- Service-Ordering Process p. 548
- Maintaining Records p. 549
- Telemanagement Systems p. 556
- Service Evaluation Plan p. 560
- Receiving and Analyzing Trouble Reports p. 568
- The Telecommunications Operations Review p. 571
- Telemanagement System Selection Considerations p. 572
- Summary p. 573
- Chapter 27 Disaster Prevention and Recovery p. 575
- The Emergency Response Team p. 575
- Disaster Prevention p. 578
- Controlling Equipment and Service Hazards p. 580
- Summary p. 586
- Chapter 28 Cutover Planning and Management p. 587
- Planning the Cutover p. 588
- Change Control p. 591
- Conducting Network Facility and Station Reviews p. 592
- Standards p. 592
- Establishing a Fallback Plan p. 598

- Testing the New System p. 598
- Post-cutover Follow-up p. 599
- Cutover Task Lists p. 600
- Summary p. 609
- Chapter 29 Telecommunications Project Management p. 611
 - Project Management Overview p. 612
 - Project Scheduling Techniques p. 617
 - Project Management and Control p. 622
 - Summary p. 624
- Chapter 30 Resale of Telecommunications Services p. 625
 - Forms of Resale p. 626
 - Forms of Resale p. 626
 - Resale Opportunities for Property Developers p. 630
 - Customer-Owned Coin Telephones p. 631
 - Summary p. 635
- Chapter 31 Controlling Telecommunications Quality p. 637
 - Transmission Quality p. 638
 - Managing Data Network Quality p. 650
 - Transmission Measurements p. 651
 - Transmission Enhancement p. 654
 - Transmission Traps for the Unwary p. 656
 - Summary p. 658
- Chapter 32 Managing Telecommunications Security p. 661
 - Principles of Telecommunications Security p. 663
 - Security Methods p. 670
 - Summary p. 675
- Chapter 33 Preventing Toll Fraud p. 677
 - Call-Sell Operations p. 678
 - Insider Theft p. 684
 - Voice Mail Hacking p. 685
 - Switchboard Scams p. 685
 - Toll Fraud Do's and Don'ts p. 686
 - Summary p. 688
- Chapter 34 Network Maintenance and Testing p. 689
 - Troubleshooting Techniques p. 690
 - Matching Test Equipment to the Strategy p. 698
 - Test Equipment Selection Considerations p. 700
 - Summary p. 703
- Chapter 35 Network Management Systems p. 705
 - Functions of a Network Management System p. 706
 - Network Control p. 713
 - Purposes of a Network Control Center p. 713
 - Simple Network Management Protocol p. 721
 - Remote Monitoring p. 724
 - Network Management System Evaluation Considerations p. 725
 - Summary p. 728

- Appendix A The Telecommunications Act of 1996 p. 729
- Appendix B Traffic Tables p. 741
- Appendix C Financial Tables p. 759
- Appendix D Code of Ethics of the Society of Telecommunications Consultants p. 765
- Appendix E Request for Proposals Preparation Guide p. 767
- Appendix F Sources of Additional Information p. 803
- Appendix G Feature Definitions of Telecommunications Systems p. 813
- Appendix H Telecommunications System Operations Review p. 829
- Appendix I Telecommunications Policy Manual p. 833
- Appendix J Telecommunications Acronym Dictionary p. 839
- Appendix K Glossary of Telecommunications Terms p. 847
- Bibliography p. 861
- Index p. 863
