

- Part 1 History, Strategic Planning, Outsourcing, and Security
- Chapter 1 Urban Water Infrastructure: A Historical Perspective Larry W. Mays
- Chapter 2 Strategic Planning Framework for Small Water Systems Janice A. Beecher and Peter E. Shanaghan
- Chapter 3 Improving Urban Water Infrastructure Through Public-Private Partnerships Robin A. Johnson and Adrian T. Moore
- Chapter 4 Water-Use Management: Permit and Water-Transfer Systems J. Wayland Eheart and Jay R. Lund
- Part 2 Demand and Management Models
- Chapter 5 Analysis of Water Demand Benedykt Dziegielewski and Eve Opitz
- Chapter 6 Water Pricing and Drought Management Messele Z. Ejeta and Larry W. Mays
- Chapter 7 Computer Programs for Integrated Management Messele Z. Ejeta and Larry W. Mays
- Chapter 8 Regional Water Supply Planning and Capacity Expansion Models Messele Z. Ejeta and Larry W. Mays
- Part 3 Performance, Reliability, Gis, Operation, and Maintenance
- Chapter 9 Performance Indicators as a Management Support Tool Helena Alegre
- Chapter 10 Reliability and Availability Analysis of Water Distribution Larry W. Mays and Kevin Lansey and Y.K. Tung
- Chapter 11 Geographic Information Systems Applied to Urban Water Supply Systems Gonzalo Lopez Patino and Francisco Javier Martinez Solano
- Chapter 12 Optimal Operation of Water Systems Fred E. Goldman and A. Borcu Atlan Sakarya and Larry W. Mays
- Chapter 13 Optimal Maintenance, Rehabilitation, Replacement Scheduling Caty Wery
- Chapter 14 Characterizing Microbial and DBP Risk Tradeoffs in Drinking Water: Application of the CRFM Robert M. Clark and Glenn Rice
- Part 4 Case Studies
- Chapter 15 Adaptive Management for Water Supply Planning: Sustaining Mexico City's Water Supply Richard L. Skaggs and Lance W. Vail and Steve Shankle
- Chapter 16 Water Infrastructure Management: An Overview of European Models and Databases Patrick Eisenbeis and Pascal LeGauffre and Sveinung Saegrov
- Chapter 17 Israel: Urban Water Infrastructure in the Desert Hendrik J. Bruins
- Chapter 18 Using GIS and Hydraulic Modeling to Evaluate Distribution Systems to Industries: A Case Study of Water Trevor R. Lindley and Steven G. Buchberger
- Part 5 Security of Urban Water Supply Systems
- Chapter 19 Protecting the Nation's Critical Infrastructure: The Vulnerability of U.S. Water Supply Systems Robert M. Clark and Rolf A. Deininger
- Chapter 20 Security Analysis and Response for Water Utilities Nicholas L. Burns and Christine A. Cooper and David A. Dobbins and Jessica C. Edwards and Les K. Lampe
