

- Preface p. xv
- Acknowledgments p. xvii
- 1 Introduction to Wireless LANs p. 1
  - Overview p. 3
  - Operation p. 3
  - Network Configurations p. 4
  - Roaming p. 6
  - Extension Points p. 6
  - Communications Methods p. 8
    - Infrared p. 8
    - Microwave p. 9
    - Radio Frequency p. 9
    - Benefits p. 11
    - Utilization p. 11
    - Hospital Use p. 12
    - College Use p. 13
    - Inventory Control p. 13
    - Internet Access p. 14
    - Training Centers p. 14
    - Facilitating Networking p. 15
    - Trade Show Use p. 15
    - Benefits p. 16
    - Constraints p. 17
    - Book Preview p. 18
    - Terminology and Technology p. 19
    - Understanding Wireless LAN Modulation p. 19
    - Understanding Wireless LAN Communications Systems p. 20
    - Wireless LAN Hardware p. 20
    - IEEE Wireless LAN Standards p. 21
    - Installing a Wireless LAN p. 22
    - The Home RF Standard p. 22
    - The Future p. 22
- 2 Terminology and Technology p. 23
  - Basic Communications Concepts p. 24
    - Powers of Ten p. 25
    - Frequency p. 26
    - Wavelength p. 27
    - The Frequency Spectrum p. 29
    - Bandwidth p. 32
    - Power Measurements p. 32
    - Signal-to-Noise Ratio p. 37
    - Transmission Rate Constraints p. 41
    - Nyquist Relationship p. 42
    - Radio Frequency Spectrum Allocation p. 45

- U.S. Spectrum Allocation p. 46
- Applications p. 49
- Other Transmission Impairments p. 50
- Basic Wireless LAN Components p. 51
- Path Loss p. 52
- Multipath Propagation p. 56
- Fading p. 57
- Enhancing Signal Reception p. 58
- 3 Understanding Wireless LAN Modulation p. 61
- Basic Modulation Methods p. 62
- Rationale p. 62
- Modulation Process p. 63
- Amplitude Modulation p. 64
- Frequency Modulation p. 65
- Phase Modulation p. 67
- Wireless LAN Modulation Methods p. 74
- DSSS Modulation p. 75
- Differential Binary Phase Shift Keying (DBPSK) p. 75
- Differential Quadrature Phase Shift Keying (DQPSK) p. 76
- Complementary Code Keying (CCK) QPSK p. 78
- Frequency Hopping Spread Spectrum (FHSS) Modulation p. 79
- Gaussian Frequency Shift Keying (GFSK) p. 79
- Orthogonal Frequency Division Multiplexing (OFDM) Modulation p. 80
- Quadrature Amplitude Modulation (QAM) p. 82
- 4 Wireless LAN Communications Systems p. 85
- Spread Spectrum Communications p. 86
- Development Rationale p. 86
- General Operation p. 87
- Spread-Spectrum Methods p. 88
- Direct Sequence Spread Spectrum (DSSS) p. 89
- Frequency Hopping Spread Spectrum p. 91
- Regulations p. 91
- Operational Parameters p. 93
- Packet Transmission Capability p. 94
- Hopping Modes p. 94
- Advantages of Use p. 95
- Direct Sequence Spread Spectrum p. 97
- Regulation p. 97
- Operation p. 98
- Using the Chipping Code p. 99
- Bandwidth Spreading p. 100
- Advantages of Use p. 101
- Disadvantages p. 102
- Coded Orthogonal Frequency Division Multiplexing p. 103

- Evolution p. 103
- Overview p. 105
- Operation p. 107
- Scrambling and Coding p. 108
- Advantages of Use p. 110
- Disadvantages p. 110
- 5 Wireless LAN Hardware p. 113
  - Wireless Access Point p. 114
  - Evolution p. 115
  - Equipment Connection p. 115
  - Using a Single Access Point p. 117
  - Using Multiple Access Points p. 118
- Wireless LAN Network Cards p. 123
  - Wireless Bridges p. 127
  - Wireless Router/Gateway p. 136
- 6 IEEE Wireless LAN Standards p. 145
  - The 802.11 Standards p. 146
    - Overview p. 147
    - Topology p. 148
  - Portals p. 152
  - The Physical Layer p. 152
    - Modulation p. 154
    - Frame Format p. 155
    - Hopping Sequence p. 156
  - Direct Sequence Spread Spectrum p. 157
    - Overview p. 157
    - Modulation p. 157
    - Frequency Allocation p. 158
    - Frame Format p. 158
  - Infrared p. 159
    - Modulation p. 160
    - Frame Format p. 161
  - The MAC Layer p. 162
    - Basic Access Method p. 162
    - Minimizing Collisions p. 163
    - Interframe Spaces p. 166
    - Collision Avoidance p. 167
    - Frame Types p. 167
    - RTS Frame p. 177
    - CTS Frame p. 177
    - ACK Frame p. 178
    - Operation p. 179
    - Joining an Existing Cell p. 179
  - Authentication and Association p. 180

- Roaming p. 180
- The 802.11b Standard Extension p. 182
- Overview p. 183
- Operation p. 183
- Modulation p. 183
- The IEEE 802.11a Standard Extension p. 190
- Overview p. 190
- Modulation p. 191
- Frame Format p. 191
- Operation p. 193
- 7 Installing a Wireless LAN p. 195
- The SMC Networks Barricade Router p. 196
- Product Overview p. 196
- Features p. 197
- Site Location p. 198
- Wireless Positioning p. 198
- Connectivity Tradeoffs p. 199
- Using WINIPCFG p. 200
- Software Setup p. 202
- Verifying Computer--Router Connectivity p. 203
- Configuring the Router p. 204
- Configuration Options p. 205
- Wireless Settings p. 216
- Return to WINIPCFG p. 217
- The SMC Networks EZ Connect PC Card p. 218
- Driver Installation p. 219
- Configuration Utility p. 222
- Agere Systems Orinoco PC Card p. 227
- Installation p. 227
- The Client Manager p. 232
- Proof of the Pudding p. 234
- 8 The Home RF Standard p. 237
- Overview p. 238
- Versions p. 239
- Network Architecture p. 240
- Nodes p. 240
- System Requirements p. 241
- Technical Characteristics p. 241
- FHSS Use p. 241
- Power, Operating Rate, and Modulation p. 242
- Device Support p. 242
- Security p. 243
- Data Compression p. 244
- Home RF Operation p. 244
