

- Preface p. xi
- Acknowledgments p. xv
- Chapter 1 Financial Statements and Accounting Concepts p. 1
  - Income Statement p. 1
  - Balance Sheet p. 5
  - Statement of Cash Flows p. 10
  - Accounting Definitions p. 13
  - Generally Accepted Accounting Principles p. 14
  - Summary p. 17
- Chapter 2 Financial Ratios and Other Measures of Performance p. 19
  - Measurement of Operating Performance p. 19
  - Measures of Financial Performance p. 30
  - Risk Measurement p. 38
  - Cautions on Ratios p. 47
  - Summary p. 48
- Chapter 3 Factors Determining Interest Rates and Required Debt Yields p. 51
  - Components of Interest: Risk-Free Rate of Return, Default, Liquidity, and Maturity Risk Premiums p. 52
    - Effect of Supply and Demand on Interest Rates p. 56
    - Summary p. 65
- Chapter 4 Forecasting Yield and Risk p. 67
  - Forecasting with A Priori Probabilities p. 68
  - Forecasting with Historical Data p. 75
  - Using Expected Values and Standard Deviations to Make Decisions p. 77
  - Portfolio Theory p. 81
  - How to Use Required Rate of Return p. 85
  - Summary p. 85
- Chapter 5 Time Value of Money p. 87
  - Four Classes of Time Value Problems p. 87
    - Future Value p. 88
    - Future Value: Annual Growth Rates p. 90
    - Future Value Formula p. 90
  - Present Value Theory and Mathematical Formula p. 91
    - Present Value Using Tables p. 92
    - Present Value of an Annuity p. 94
  - Loan Payments p. 94
    - Loan Amortization Schedules p. 96
  - Mathematical Formula for Present Value of an Annuity p. 98
  - Future Value of an Annuity p. 98
    - Mathematical Formula for Future Value of an Annuity p. 99
  - Summary p. 100
- Chapter 6 Bond Valuation p. 101
  - Bond Valuation p. 101
  - Callable Bonds p. 104

- Convertible Bonds p. 106
- Bond Yield p. 107
- Yield to Call p. 112
- Interpolation Theory p. 114
- Summary p. 116
- Chapter 7 Leases p. 119
  - Operating Versus Capital Leases p. 119
  - Imputed Interest Rates p. 120
  - Effect of Deposits and Prepayments on the Imputed Interest Rate p. 122
  - Capitalizing Leases p. 125
  - Summary p. 128
- Chapter 8 Stock Valuation p. 129
  - Stock Valuation p. 129
  - Computing Stock Value p. 132
  - Stock Yield p. 136
  - Stock Valuation Based on Cash Flow p. 136
  - Stock Valuation Based on Earnings p. 138
  - Stock Valuation Based on Sales p. 140
  - Summary p. 142
- Chapter 9 Cost of Capital p. 143
  - Cost of Debt Capital p. 143
  - Cost of Preferred Stock Capital p. 144
  - Cost of Common Equity p. 145
  - Cost of New Common Equity Capital p. 148
  - Cost-Free Capital p. 151
  - Weighted Average Cost of Capital (WACC) p. 151
  - When Should New Common Stock Be Issued? p. 154
  - Cost of Leased Capital p. 158
  - Marginal Cost of Capital p. 158
  - Decision Rules for the Optimal Capital Budget p. 160
  - Summary p. 162
- Chapter 10 Capital Budgeting p. 165
  - Methods for Evaluating Capital Projects p. 166
  - Payback Method p. 166
  - Discounted Payback Method p. 168
  - Net Present Value p. 170
  - Internal Rate of Return p. 171
  - Modified Rate of Return p. 175
  - Comparison of Capital Budgeting Methods p. 178
  - Summary p. 178
- Chapter 11 Cash Flow Estimation for Capital Budgeting p. 181
  - Capital Budgeting Ground Rules p. 181
  - Capital Budgeting Format p. 183
  - Replacement Equipment p. 185

- Inflation and Price Pressure p. 185
- Spreadsheet Modeling p. 185
- Summary p. 187
- Chapter 12 Product Costing p. 189
  - Cost Versus Expense p. 189
  - Financial Accounting Versus Managerial Accounting p. 190
  - Unallocated Manufacturing Overhead p. 193
  - Expenses Versus Inventory p. 197
  - Full Absorption Cost of Purchased Merchandise p. 197
  - Make or Buy Decisions p. 198
  - Managerial Accounting p. 199
  - Gross Profit Versus Contribution p. 201
  - Summary p. 203
- Chapter 13 Break-Even Analysis and Modeling p. 205
  - Break-Even Analysis p. 205
  - Modeling Profit p. 208
  - Sales Volume Break-Even p. 210
  - Relevant Range p. 212
  - Reality Testing p. 212
  - Break-Even and Risk p. 213
  - Summary p. 216
- Chapter 14 Working Capital and Cash Budgeting p. 217
  - Working Capital p. 217
  - Cash Budgeting p. 218
  - Opening a New Facility p. 221
  - Line of Credit p. 226
  - Seasonal Cash Demand p. 228
  - Managing Working Capital p. 230
  - Summary p. 248
- Chapter 15 Master Budgets and Variance Analysis p. 251
  - Basic Budgets p. 252
  - Master Budgets p. 253
  - Master Budgets Versus Financial Statements p. 259
  - Supplemental Budgets p. 261
  - Summary p. 261
- Chapter 16 Pricing Theory p. 263
  - Cost-Centered Pricing p. 263
  - Market-Centered Pricing p. 265
  - Engineered Cost p. 269
  - Price Elasticity p. 270
  - Product Life Cycle p. 272
  - Transfer Pricing p. 273
  - Opportunistic Pricing p. 275
  - Microeconomics Pricing p. 277

- Summary p. 286
- Chapter 17 Advanced Cost Concepts and Allocation of Resources p. 289
  - Cost Drivers p. 289
  - Activity-Based Costing p. 291
  - Job Costing p. 293
  - Cost Drivers as a Method for Overhead Allocation p. 297
  - Traditional Overhead Allocation p. 298
  - Joint Products: Two Product Problem p. 299
  - Theory of Constraints p. 300
  - Profit Ladder p. 303
  - New Product Selection p. 307
  - Summary p. 310
- Chapter 18 Labor Costs p. 313
  - Overtime p. 313
  - Turnover Costs p. 315
  - Workers' Compensation p. 316
  - Unemployment Compensation Taxes p. 319
  - Summary p. 321
  - Appendixes p. 323
    - Appendix A Future Value Interest Factor:  $FVIF(i, n)$  p. 324
    - Appendix B Future Value Interest Factor for an Annuity:  $FVIFA(i, n)$  p. 326
    - Appendix C Present Value Interest Factor:  $PVIF(i, n)$  p. 328
    - Appendix D Present Value Interest Factor for an Annuity:  $PVIFA(i, n)$  p. 330
  - Appendix E Chapter Exercises p. 332
  - Appendix F Exercise Answers p. 383
- Index p. 399
