

Table of contents

- Contributors Preface Acknowledgments
- Part 1 Acetic Acid
- Chapter 1.1 Chiyoda Acetic Acid Process ACETICA(R)
- Part 2 Aniline
- Chapter 2.1 DuPont/KBR Aniline Process
- Part 3 1,3-Butadiene
- Chapter 3.1 BASF Butadiene Extraction Technology
- Chapter 3.2 UOP KLP 1,3-Butadiene from Acetylene Process
- Part 4 Cumene
- Chapter 4.1 ABB Lummus Global Cumene Production via CDCumene(R)Technology
- Chapter 4.2 UOP Q-Max(TM) Process
- Part 5 Ethylbenzene
- Chapter 5.1 Lummus/UOP Liquid-Phase EBOneProcess and CDTECH EB(R) Process
- Chapter 5.2 Polimeri Europa Ethylbenzene Process
- Chapter 5.3 ExxonMobil/Badger Ethylbenzene Technology(Brian Maerz and C. Morris Smith)
- Part 6 Ethylene
- Chapter 6.1 ABB Lummus Global SRT(R) Cracking Technology for the Production of Ethylene
- Chapter 6.2 Stone & Webster Ethylene Technology(Colin P. Bowen)
- Chapter 6.3 KBR SCORE(TM) Ethylene Technology
- Part 7 Methanol
- Chapter 7.1 Lurgi MegaMethanol(R) Technology
- Part 8 Oxo Alcohols
- Chapter 8.1 Johnson Matthey Oxo Alcohols Process
- Part 9 Phenols and Acetone
- Chapter 9.1 Polimeri Europa Cumene-Phenol Processes
- Chapter 9.2 Sunoco/UOP Phenol Process
- Chapter 9.3 KBR Phenol Process
- Chapter 9.4 QBIS(TM) Process for High-Purity Bisphenol A
- Part 10 Propylene and Light Olefins
- Chapter 10.1 Lurgi MTP(R) Technology
- Chapter 10.2 UOP/Hydro MTO Process
- Chapter 10.3 UOP Oleflex(TM) Process
- Chapter 10.4 ABB Lummus Global Propylene Production via Olefins Conversion Technology
- Chapter 10.5 Propylene via CATOFIN(R) Propane Dehydrogenation Technology
- Part 11 Styrene
- Chapter 11.1 Lummus/UOP "Classic" Styrene Technology and Lummus/UOP SMART(TM) Styrene Technology
- Chapter 11.2 Stone & Webster (Badger) Styrene Technology

- **Chapter 11.3 Polimeri Europa Styrene Process Technology**
- **Part 12 Terephthalic Acid**
- **Chapter 12.1 EPTA The Lurgi/Eastman/SK Process**
- **Part 13 Xylenes**
- **Chapter 13.1 ExxonMobil PxMaxSM p-Xylene Toluene**
- **Chapter 13.2 ExxonMobil XyMaxSM Xylene Isomerization**
- **Chapter 13.3 UOP Parex(TM) Process for p-Xylene Production**
- **Part 14 Polyethylene**
- **Chapter 14.1 BasellSpherileneTechnology for LLDPE and HDPE Production**
- **Chapter 14.2 Borstar LLDPE and HDPE Technology**
- **Chapter 14.3 Chevron Philips Slurry-Loop-Reactor Process for Polymerizing Linear Polyethylene**
- **Chapter 14.3 ExxonMobil High-Pressure Process Technology for LDPE**
- **Chapter 14.5 Polimeri Europa Polyethylene High-Pressure Technologies**
- **Chapter 14.6 BasellHostalenTechnology for Bimodal HDPE Production**
- **Chapter 14.7 BasellLupotechG Technology for HDPE and MDPE Production**
