

- Preface p. xi
- 1 Introduction
- 1.1. Background, Definition, and the Need for Biosensors p. 1
- 1.2. Assay Formats p. 10
- 1.3. Difficulties with Biosensor Applications p. 12
- 1.4. Newer Applications for Biosensors p. 13
- 1.5. Commercially Available Biosensors p. 17
- 1.6. Biomedical Applications p. 17
- 1.7. Overview p. 19
- 2 Influence of Diffusional Limitations and Reaction Order On Antigen-Antibody Binding Kinetics
- 2.1. Introduction p. 23
- 2.2. Theory p. 24
- 3 Influence of Diffusional Limitations and Lateral Interactions on Antigen-Antibody Binding Kinetics
- 3.1. Introduction p. 45
- 3.2. Theory p. 46
- 3.3. Conclusions p. 63
- 4 Fractal Reaction Kinetics
- 4.1. Introduction p. 67
- 4.2. Fractal Kinetics p. 69
- 5 Influence of Different Parameters on Fractal Dimension Values During the Binding Phase
- 5.1. Introduction p. 83
- 5.2. Theory p. 85
- 5.3. Results p. 89
- 5.4. Summary and Conclusions p. 122
- 6 Fractal Dimension and the Binding Rate Coefficient
- 6.1. Introduction p. 127
- 6.2. Theory p. 130
- 6.3. Results p. 133
- 6.4. Conclusions p. 183
- 7 Fractal Dimension and the Dissociation Rate Coefficient
- 7.1. Introduction p. 187
- 7.2. Theory p. 190
- 7.3. Results p. 195
- 7.4. Conclusions p. 216
- 8 Influence of Nonspecific Binding on the Rate and Amount of Specific Binding: a classical analysis
- 8.1. Introduction p. 221
- 8.2. Theory p. 230
- 9 Influence of Nonspecific Binding on the Rate and Amount of Specific Binding: a fractal analysis
- 9.1. Introduction p. 253
- 9.2. Theory p. 255

- 9.3. Results p. 257
- 9.4. Other Examples of Interest p. 265
- 9.5. Conclusions p. 269
- 10 Fractal Dimension and Hybridization
- 10.1. Introduction p. 273
- 10.2. Theory p. 275
- 10.3. Results p. 276
- 10.4. Conclusions p. 307
- 11 Fractal Dimension and Analyte-Receptor Binding in Cells
- 11.1. Introduction p. 311
- 11.2. Theory p. 313
- 11.3. Results p. 315
- 11.4. Conclusions p. 341
- 12 Surface Plasmon Resonance Biosensors
- 12.1. Introduction p. 345
- 12.2. Theory p. 347
- 12.3. Results p. 349
- 12.4. Conclusions p. 379
- 13 Economics and Market for Biosensors
- 13.1. Introduction p. 385
- 13.2. Market Size and Economics p. 386
- 13.3. Development Cost of a Biosensor p. 393
- 13.4. Cost Reduction Methods p. 395
- Index p. 399
