

- Introduction Overview
- Building Strategies Taking Us to a Hydrogen Age
- Prospecting the Future for Hydrogen Fuel Cell Vehicle Markets
- Fuel Cell Hybrid Vehicles: The Challenge for the Future
- System Considerations & Hydrogen Supply
- Clean Hydrogen from Coal with CO₂ Capture and Sequestration
- Entrepreneurship in the Hydrogen Transition
- Hydrogen from Electrolysis
- The President's US Hydrogen Initiative
- The Hydrogen Transition: A California Perspective
- US Hydrogen Activity - A Reflection from the European Perspective
- Lessons Learned from 15 Years of Alternative Fuels Experience 1988 to 2003
- Lessons Learned in the Deployment of Alternative Fueled Vehicles
- Understanding the Transition to New Fuels and Vehicles
- Why a Hydrogen Fuel Cell Focus is Premature
- Hydrogen Hope or Hype
- Epilogue
