

## Table of Contents

- 1 The Human Body: An Overview
- 2 The Heart and Circulatory System
- 3 Electrodes and Transducers
- 4 Bioelectric Amplifiers
- 5 Electroradiographs
- 6 Physiological Pressure Measurements
- 7 Other Cardiovascular Measurements
- 8 Cardiac Stimulation and Life Support Equipment
- 10 Respiratory Instrumentation
- 12 The Human Nervous System
- 14 Intensive and Coronary Care Units
- 15 Operating Rooms
- 16 Medical Laboratory Instrumentation
- 17 Medical Ultrasound
- 18 Electrosurgery Generators
- 19 Electrical Safety in the Medical Environment
- 20 Medical Recorders
- 21 Medical Oscilloscopes
- 23 Radiology and Nuclear Medicine Equipment
- 24 Computers in Biomedical Equipment
- Index
- Appendixes
- 9 The Respiratory System
- 11 Respiratory Therapy Equipment
- 13 Instrumentation for Measuring Brain Parameters
- 22 Hemodialysis Machines
