

Table of contents provided by Syndetics

- **Preface** (p. xxxi)
- **Chapter 1 Introduction to Computers, the Internet and the Web** (p. 1)
- **1.1 Introduction** (p. 2)
- **1.2 What is a Computer?** (p. 7)
- **1.3 Computer Organization** (p. 7)
- **1.4 Evolution of Operating Systems** (p. 8)
- **1.5 Personal, Distributed Computing, and Client/Server Computing** (p. 9)
- **1.6 Machine Languages, Assembly Languages, and High-level Languages** (p. 10)
- **1.7 History of C++** (p. 11)
- **1.8 History of Java** (p. 12)
- **1.9 Java Class Libraries** (p. 12)
- **1.10 Other High-level Languages** (p. 14)
- **1.11 Structured Programming** (p. 14)
- **1.12 The Internet and World Wide Web** (p. 15)
- **1.13 Basics of a Typical Java Environment** (p. 15)
- **1.14 General Notes About Java and this Book** (p. 19)
- **1.15 A Tour of the Book** (p. 20)
- **Chapter 2 Introduction to Java Applications** (p. 35)
- **2.1 Introduction** (p. 36)
- **2.2 A Simple Program: Printing a Line of Text** (p. 36)
- **2.3 Another Java Application: Adding Integers** (p. 46)
- **2.4 Memory Concepts** (p. 52)
- **2.5 Arithmetic** (p. 53)
- **2.6 Decision Making: Equality and Relational Operators** (p. 56)
- **Chapter 3 Introduction to Java Applets** (p. 76)
- **3.1 Introduction** (p. 77)
- **3.2 Thinking About Objects** (p. 77)
- **3.3 Sample Applets from the Java 2 Software Development Kit** (p. 79)
- **3.4 A Simple Java Applet: Drawing a String** (p. 85)
- **3.5 Two More Simple Applets: Drawing Strings and Lines** (p. 92)
- **3.6 Another Java Applet: Adding Integers** (p. 94)
- **3.7 Java Applet Internet and World Wide Web Resources** (p. 101)
- **Chapter 4 Control Structures: Part 1** (p. 112)
- **4.1 Introduction** (p. 113)
- **4.2 Algorithms** (p. 113)
- **4.3 Pseudocode** (p. 114)
- **4.4 Control Structures** (p. 114)
- **4.5 The if Selection Structure** (p. 117)
- **4.6 The if/else Selection Structure** (p. 118)
- **4.7 The while Repetition Structure** (p. 123)
- **4.8 Formulating Algorithms: Case Study 1 (Counter-Controlled Repetition)** (p. 124)
- **4.9 Formulating Algorithms with Top-Down, Stepwise Refinement: Case Study 2 (Sentinel-Controlled Repetition)** (p. 129)

- **4.10 Formulating Algorithms with Top-Down, Stepwise Refinement: Case Study 3** (Nested Control Structures) (p. 136)
- **4.11 Assignment Operators** (p. 140)
- **4.12 Increment and Decrement Operators** (p. 141)
- **4.13 Primitive Data Types** (p. 144)
- **Chapter 5 Control Structures: Part 2** (p. 157)
- **5.1 Introduction** (p. 158)
- **5.2 Essentials of Counter-Controlled Repetition** (p. 158)
- **5.3 The for Repetition Structure** (p. 160)
- **5.4 Examples Using the for Structure** (p. 164)
- **5.5 The switch Multiple-Selection Structure** (p. 169)
- **5.6 The do/while Repetition Structure** (p. 174)
- **5.7 The break and continue Statements** (p. 176)
- **5.8 The Labeled break and continue Statements** (p. 178)
- **5.9 Logical Operators** (p. 180)
- **5.10 Structured Programming Summary** (p. 186)
- **Chapter 6 Methods** (p. 202)
- **6.1 Introduction** (p. 203)
- **6.2 Program Modules in Java** (p. 203)
- **6.3 Math Class Methods** (p. 204)
- **6.4 Methods** (p. 206)
- **6.5 Method Definitions** (p. 207)
- **6.6 Java API Packages** (p. 214)
- **6.7 Random Number Generation** (p. 219)
- **6.8 Example: A Game of Chance** (p. 222)
- **6.9 Duration of Identifiers** (p. 231)
- **6.10 Scope Rules** (p. 231)
- **6.14 Method Overloading** (p. 243)
- **6.11 Recursion** (p. 234)
- **6.12 Example Using Recursion: The Fibonacci Series** (p. 238)
- **6.13 Recursion vs. Iteration** (p. 242)
- **6.15 Methods of Class JApplet** (p. 246)
- **Chapter 7 Arrays** (p. 268)
- **7.1 Introduction** (p. 269)
- **7.2 Arrays** (p. 269)
- **7.3 Declaring and Allocating Arrays** (p. 271)
- **7.4 Examples Using Arrays** (p. 272)
- **7.5 References and Reference Parameters** (p. 282)
- **7.6 Passing Arrays to Methods** (p. 283)
- **7.7 Sorting Arrays** (p. 285)
- **7.8 Searching Arrays: Linear Search and Binary Search** (p. 288)
- **7.9 Multiple-Subscripted Arrays** (p. 294)
- **Chapter 8 Object-Based Programming** (p. 324)
- **8.1 Introduction** (p. 325)
- **8.2 Implementing a Time Abstract Data Type with a Class** (p. 326)
- **8.3 Class Scope** (p. 334)

- **8.4 Controlling Access to Members** (p. 334)
- **8.5 Creating Packages** (p. 336)
- **8.6 Initializing Class Objects: Constructors** (p. 340)
- **8.7 Using Overloaded Constructors** (p. 341)
- **8.8 Using Set and Get Methods** (p. 346)
- **8.9 Software Reusability** (p. 353)
- **8.10 Final Instance Variables** (p. 354)
- **8.11 Composition: Objects as Instance Variables of Other Classes** (p. 355)
- **8.12 Package Access** (p. 358)
- **8.13 Using the this Reference** (p. 360)
- **8.14 Finalizers** (p. 366)
- **8.15 Static Class members** (p. 367)
- **8.16 Data Abstraction and Information Hiding** (p. 371)
- **Chapter 9 Object-Oriented Programming** (p. 384)
- **9.1 Introduction** (p. 385)
- **9.2 Superclasses and Subclasses** (p. 387)
- **9.3 Protected Members** (p. 390)
- **9.4 Relationship between Superclass Objects and Subclass Objects** (p. 390)
- **9.5 Constructors and Finalizers in Subclasses** (p. 397)
- **9.6 Implicit Subclass-Object-to-Superclass-Object Conversion** (p. 400)
- **9.7 Software Engineering with Inheritance** (p. 401)
- **9.8 Composition vs. Inheritance** (p. 402)
- **9.9 Case Study: Point, Circle, Cylinder** (p. 402)
- **9.10 Introduction to Polymorphism** (p. 408)
- **9.11 Type Fields and switch Statements** (p. 409)
- **9.12 Dynamic Method Binding** (p. 409)
- **9.13 Final Methods and Classes** (p. 409)
- **9.14 Abstract Superclasses and Concrete Classes** (p. 410)
- **9.15 Polymorphism Examples** (p. 411)
- **9.16 Case Study: A Payroll System Using Polymorphism** (p. 413)
- **9.17 New Classes and Dynamic Binding** (p. 420)
- **9.18 Case Study: Inheriting Interface and Implementation** (p. 421)
- **9.19 Case Study: Creating and Using Interfaces** (p. 427)
- **9.20 Inner Class Definitions** (p. 432)
- **9.21 Notes on Inner Class Definitions** (p. 443)
- **9.22 Type-Wrapper Classes for Primitive Types** (p. 443)
- **Chapter 10 Strings and Characters** (p. 455)
- **10.1 Introduction** (p. 456)
- **10.2 Fundamentals of Characters and Strings** (p. 456)
- **10.3 String Constructors** (p. 457)
- **10.4 String Methods length, charAt and getChars** (p. 460)
- **10.5 Comparing Strings** (p. 462)
- **10.6 String Method hashCode** (p. 467)
- **10.7 Locating Characters and Substrings in Strings** (p. 468)
- **10.8 Extracting Substrings from Strings** (p. 471)
- **10.9 Concatenating Strings** (p. 472)

- **10.10 Miscellaneous String Methods** (p. 473)
- **10.11 Using String Method valueOf** (p. 475)
- **10.12 String Method intern** (p. 477)
- **10.13 StringBuffer Class** (p. 479)
- **10.17 StringBuffer append Methods** (p. 484)
- **10.14 StringBuffer Constructors** (p. 480)
- **10.15 StringBuffer Methods length, capacity, setLength and ensureCapacity** (p. 481)
- **10.16 StringBuffer Methods charAt, setCharAt, getChars and reverse** (p. 482)
- **10.18 StringBuffer Insertion and Deletion Methods** (p. 486)
- **10.19 Character Class Examples** (p. 487)
- **10.20 Class StringTokenizer** (p. 495)
- **10.21 A Card Shuffling and Dealing Simulation** (p. 498)
- **Chapter 11 Graphics and Java2D** (p. 513)
- **11.1 Introduction** (p. 514)
- **11.2 Graphics Contexts and Graphics Objects** (p. 516)
- **11.3 Color Control** (p. 517)
- **11.4 Font Control** (p. 525)
- **11.5 Drawing lines, Rectangles and Ovals** (p. 530)
- **11.6 Drawing Arcs** (p. 534)
- **11.7 Drawing Polygons and Polylines** (p. 536)
- **11.8 The Java2D API** (p. 539)
- **11.9 Java2D Shapes** (p. 540)
- **Chapter 12 Basic Graphical User Interface Components** (p. 556)
- **12.1 Introduction** (p. 557)
- **12.2 Swing Overview** (p. 559)
- **12.3 JLabel** (p. 561)
- **12.4 Event Handling Model** (p. 564)
- **12.5 JTextField and JPasswordField** (p. 566)
- **12.6 JButton** (p. 572)
- **12.7 JCheckBox and JRadioButton** (p. 575)
- **12.11 Mouse Event Handling** (p. 589)
- **12.8 JComboBox** (p. 581)
- **12.9 JList** (p. 584)
- **12.10 Multiple-Selection Lists** (p. 587)
- **12.12 Adapter Classes** (p. 593)
- **12.13 Keyboard Event Handling** (p. 599)
- **12.14 Layout Managers** (p. 602)
- **13.2 JTextArea** (p. 627)
- **12.15 Panels** (p. 611)
- **Chapter 13 Advanced Graphical User Interfaces** (p. 625)
- **13.1 Introduction** (p. 626)
- **13.3 Creating a Customized Subclass of JPanel** (p. 630)
- **13.4 Creating a Self-Contained Subclass of JPanel** (p. 634)
- **13.5 JSlider** (p. 639)
- **13.6 Windows** (p. 643)
- **13.7 Designing Programs that Execute as Applets or Applications** (p. 644)

- **13.8 Using Menus with Frames** (p. 650)
- **13.9 Using JPopupMenu** (p. 658)
- **13.10 Pluggable Look-and-Feel** (p. 661)
- **13.11 Using JDesktopPane and JInternalFrame** (p. 665)
- **13.12 Layout Managers** (p. 669)
- **13.13 BorderLayout Layout Manager** (p. 669)
- **13.14 CardLayout Layout Manager** (p. 673)
- **13.15 GridBagLayout Layout Manager** (p. 677)
- **13.16 GridBagConstraints Constants Relative and Remainder** (p. 684)
- **Chapter 14 Exception Handling** (p. 698)
- **14.1 Introduction** (p. 699)
- **14.2 When Exception Handling Should Be Used** (p. 701)
- **14.3 Other Error Handling Techniques** (p. 702)
- **14.4 The Basics of Java Exception Handling** (p. 702)
- **14.5 An Exception Handling Example: Divide by Zero** (p. 703)
- **14.6 Try Blocks** (p. 708)
- **14.7 Throwing an Exception** (p. 709)
- **14.8 Catching an Exception** (p. 709)
- **14.9 Rethrowing an Exception** (p. 711)
- **14.10 Throws Clause** (p. 712)
- **14.11 Constructors, Finalizers and Exception Handling** (p. 717)
- **14.12 Exceptions and Inheritance** (p. 717)
- **14.13 Finally Block** (p. 718)
- **14.14 Using printStackTrace and getMessage** (p. 722)
- **Chapter 15 Multithreading** (p. 733)
- **5.1 Introduction** (p. 734)
- **15.2 Class Thread: An Overview of the Thread Methods** (p. 736)
- **15.3 Thread States: Life Cycle of a Thread** (p. 737)
- **15.4 Thread Priorities and Thread Scheduling** (p. 738)
- **15.5 Thread Synchronization** (p. 743)
- **15.6 Producer/Consumer Relationship without Thread Synchronization** (p. 744)
- **15.7 Producer/Consumer Relationship with Thread Synchronization** (p. 748)
- **15.8 Producer/Consumer Relationship: The Circular Buffer** (p. 753)
- **15.9 Daemon Threads** (p. 759)
- **15.10 Runnable Interface** (p. 759)
- **15.11 Thread Groups** (p. 764)
- **Chapter 16 Multimedia: Images, Animation, Audio and Video** (p. 774)
- **16.1 Introduction** (p. 775)
- **16.2 Downloading the Java Media Framework** (p. 776)
- **16.3 Loading, Displaying and Scaling Images** (p. 776)
- **16.4 Loading and Playing Audio Clips** (p. 780)
- **16.5 The Java Media Player** (p. 782)
- **16.6 Animating a Series of Images** (p. 789)
- **16.7 Animation Issues** (p. 794)
- **16.8 Customizing Applets via the HTML param Tag** (p. 796)
- **16.9 Image Maps** (p. 800)

- **16.10 Java Plug-In** (p. 803)
- **16.11 Internet and World Wide Web Resources** (p. 804)
- **Chapter 17 Files and Streams** (p. 817)
- **17.1 Introduction** (p. 818)
- **17.2 Data Hierarchy** (p. 818)
- **17.3 Files and Streams** (p. 820)
- **17.4 Creating a Sequential-Access File** (p. 825)
- **17.5 Reading Data from a Sequential-Access File** (p. 834)
- **17.6 Updating Sequential-Access Files** (p. 845)
- **17.7 Random-Access Files** (p. 845)
- **17.8 Creating a Random-Access File** (p. 846)
- **17.9 Writing Data Randomly to a Random-Access File** (p. 850)
- **17.10 Reading Data Sequentially from a Random-Access File** (p. 854)
- **17.11 Example: A Transaction-Processing Program** (p. 857)
- **17.12 Class File** (p. 870)
- **Chapter 18 Java Database Connectivity (JDBC)** (p. 886)
- **18.1 Introduction** (p. 887)
- **18.2 Database Systems** (p. 888)
- **18.3 Relational Database Model** (p. 889)
- **18.4 Relational Database Overview: The Books .mdb Database** (p. 891)
- **18.5 Structured Query Language** (p. 896)
- **18.6 A First Example** (p. 905)
- **18.7 Reading, Inserting and Updating a Microsoft Access database** (p. 917)
- **18.8 Transaction Processing** (p. 929)
- **Chapter 19 Servlets** (p. 935)
- **19.1 Introduction** (p. 936)
- **19.2 Overview of Servlet Technology** (p. 938)
- **19.3 Downloading the Java Servlet Development Kit** (p. 942)
- **19.4 Handling Http Get Requests** (p. 943)
- **19.5 Handling Http Post Requests** (p. 948)
- **19.6 Session Tracking** (p. 954)
- **19.7 Multitier Applications: Using JDBC from a Servlet** (p. 968)
- **19.8 Electronic Commerce** (p. 974)
- **19.9 Servlet Internet and World Wide Web Resources** (p. 974)
- **Chapter 20 Remote Method Invocation (RMI)** (p. 980)
- **20.1 Introduction** (p. 981)
- **20.2 Case Study: Creating a Distributed System with RMI** (p. 982)
- **20.3 Defining the Remote Interface** (p. 982)
- **20.4 Implementing the Remote Interface** (p. 983)
- **20.5 Define the Client** (p. 990)
- **20.6 Compile and Execute the Server and the Client** (p. 995)
- **Chapter 21 Networking** (p. 1002)
- **21.1 Introduction** (p. 1003)
- **21.2 Manipulating URLs** (p. 1004)
- **21.3 Reading a File on a Web Server** (p. 1008)
- **21.4 Establishing a Simple Server (Using Stream Sockets)** (p. 1012)

- **21.5 Establishing a Simple Client (Using Stream Sockets)** (p. 1014)
- **21.6 Client/Server Interaction with Stream Socket Connections** (p. 1014)
- **21.7 Connectionless Client/Server Interaction with Datagrams** (p. 1024)
- **21.8 Client/Server Tic-Tac-Toe Using a Multithreaded Server** (p. 1031)
- **21.9 Security and the Network** (p. 1041)
- **Chapter 22 Data Structures** (p. 1051)
- **22.1 Introduction** (p. 1052)
- **22.2 Self-Referential Classes** (p. 1053)
- **22.3 Dynamic Memory Allocation** (p. 1053)
- **22.4 Linked Lists** (p. 1054)
- **22.5 Stacks** (p. 1063)
- **22.6 Queues** (p. 1067)
- **22.7 Trees** (p. 1070)
- **Chapter 23 Java Utilities Package and Bit Manipulation** (p. 1101)
- **23.1 Introduction** (p. 1102)
- **23.2 Vector Class and Enumeration Interface** (p. 1102)
- **23.3 Stack Class** (p. 1109)
- **23.4 Dictionary Class** (p. 1113)
- **23.5 Hashtable Class** (p. 1114)
- **23.6 Properties Class** (p. 1120)
- **23.7 Random Class** (p. 1125)
- **23.8 Bit Manipulation and the Bitwise Operators** (p. 1126)
- **23.9 BitSet Class** (p. 1139)
- **Chapter 24 Collections** (p. 1150)
- **24.1 Introduction** (p. 1151)
- **24.2 Overview** (p. 1152)
- **24.3 Class Arrays** (p. 1152)
- **24.4 Interface Collection and Class Collections** (p. 1156)
- **24.5 Lists** (p. 1157)
- **24.6 Algorithms** (p. 1163)
- **24.7 Sets** (p. 1172)
- **24.8 Maps** (p. 1175)
- **24.9 Synchronization Wrappers** (p. 1176)
- **24.10 Unmodifiable Wrappers** (p. 1177)
- **24.11 Abstract Implementations** (p. 1177)
- **Chapter 25 JavaBeans** (p. 1184)
- **25.1 Introduction** (p. 1185)
- **25.2 BeanBox Overview** (p. 1186)
- **25.3 Preparing a Class to Be a JavaBean** (p. 1197)
- **25.3 Creating a JavaBean: Java Archive Files and the jar Utility** (p. 1200)
- **25.5 Adding Beans to the BeanBox** (p. 1203)
- **25.6 Connecting Beans with Events in the BeanBox** (p. 1204)
- **25.7 Adding Properties to a JavaBean** (p. 1206)
- **25.8 Creating a JavaBean with a Bound Property** (p. 1209)
- **25.9 Specifying the BeanInfo Class for a JavaBean** (p. 1216)
- **25.10 JavaBeans World Wide Web Resources** (p. 1221)

- **Appendix A Demos** (p. 1229)
- **Appendix B Java Resources** (p. 1232)
- **Appendix C Operator Precedence Chart** (p. 1240)
- **Appendix D ASCII Character Set** (p. 1242)
- **Appendix E Number Systems** (p. 1243)
 - **E.1 Introduction** (p. 1243)
 - **E.2 Abbreviating Binary Numbers as Octal Numbers and Hexadecimal Numbers** (p. 1244)
 - **E.3 Converting from Octal Numbers and Hexadecimal Numbers to Binary Numbers** (p. 1247)
 - **E.4 Converting from Binary, Octal, or Hexadecimal to Decimal** (p. 1248)
 - **E.5 Converting from Decimal to Binary, Octal, or Hexadecimal** (p. 1249)
 - **E.6 Negative Binary Numbers: Two's Complement Notation** (p. 1251)
- **Appendix F Object-Oriented Elevator Simulator** (p. 1256)
- **Appendix G Creating HTML Documentation with javadoc** (p. 1271)
- **Index** (p. 1298)
- **Appendix H Enterprise JavaBeans (EJB) Web Resources** (p. 1286)
- **Appendix I Jini Web Resources** (p. 1290)
- **Bibliography** (p. 1293)
