

- **Chapter 0 Introduction to Computing** (p. 1)
- **Section 0.1 Numbering and coding systems** (p. 2)
- **Section 0.2 Digital primer** (p. 9)
- **Section 0.3 Inside the computer** (p. 13)
- **Chapter 1 The 8051 Microcontrollers** (p. 23)
- **Section 1.1 Microcontrollers and embedded processors** (p. 24)
- **Section 1.2 Overview of the 8051 family** (p. 28)
- **Chapter 2 8051 Assembly Language Programming** (p. 37)
- **Section 2.1 Inside the 8051** (p. 38)
- **Section 2.2 Introduction to 8051 Assembly programming** (p. 41)
- **Section 2.3 Assembling and running an 8051 program** (p. 44)
- **Section 2.4 The program counter and ROM space in the 8051** (p. 46)
- **Section 2.5 8051 data types and directives** (p. 49)
- **Section 2.6 8051 flag bits and the PSW register** (p. 52)
- **Section 2.7 8051 register banks and stack** (p. 55)
- **Chapter 3 Jump, Loop, and Call Instructions** (p. 69)
- **Chapter 4 I/O port programming** (p. 93)
- **Section 3.1 Loop and jump instructions** (p. 70)
- **Section 3.2 Call instructions** (p. 75)
- **Section 3.3 Time delay for various 8051 chips** (p. 80)
- **Section 4.1 8051 I/O programming** (p. 94)
- **Section 4.2 I/O bit manipulation programming** (p. 100)
- **Chapter 5 8051 Addressing Modes** (p. 109)
- **Section 5.1 Immediate and register addressing modes** (p. 110)
- **Section 5.2 Accessing memory using various addressing modes** (p. 112)
- **Section 5.3 Bit addresses for I/O and RAM** (p. 122)
- **Section 5.4 Extra 128-byte on-chip RAM in 8052** (p. 131)
- **Section 6.3 Logic and compare instructions** (p. 155)
- **Chapter 6 Arithmetic & Logic Instructions and Programs** (p. 139)
- **Section 6.1 Arithmetic instructions** (p. 140)
- **Section 6.2 Signed number concepts and arithmetic operations** (p. 150)
- **Section 6.4 Rotate instruction and data serialization** (p. 161)
- **Section 6.5 BCD, ASCII, and other application programs** (p. 167)
- **Chapter 7 8051 Programming in C** (p. 181)
- **Section 7.1 Data types and time delay in 8051 C** (p. 182)
- **Section 7.2 I/O programming in 8051 C** (p. 188)
- **Section 7.3 Logic operations in 8051 C** (p. 194)
- **Section 7.5 Accessing code ROM space in 8051 C** (p. 204)
- **Section 7.6 Data serialization using 8051 C** (p. 209)
- **Chapter 8 8051 Hardware Connection and Intel Hex File** (p. 217)
- **Section 8.1 Pin description of the 8051** (p. 218)
- **Section 8.2 Design and test of DS89C4x0 trainer** (p. 224)
- **Section 8.3 Explaining the Intel hex file** (p. 232)
- **Chapter 9 8051 Timer Programming in Assembly and C** (p. 239)
- **Section 9.1 Programming 8051 timers** (p. 240)
- **Section 9.2 Counter programming** (p. 255)

- **Section 9.3 Programming timers 0 and 1 in 8051 C** (p. 260)
- **Section 10.4 Programming the second serial port** (p. 300)
- **Section 7.4 Data conversion programs in 8051 C** (p. 199)
- **Chapter 10 8051 Serial Port Programming in Assembly and C** (p. 277)
- **Section 10.1 Basics of serial communication** (p. 278)
- **Section 10.2 8051 connection to RS232** (p. 285)
- **Section 10.3 8051 serial port programming in Assembly** (p. 287)
- **Section 10.5 Serial port programming in C** (p. 306)
- **Chapter 11 Interrupts Programming in Assembly and C** (p. 317)
- **Section 11.1 8051 interrupts** (p. 318)
- **Section 11.2 Programming timer interrupts** (p. 322)
- **Section 11.3 Programming external hardware interrupts** (p. 326)
- **Section 11.4 Programming the serial communication interrupt** (p. 333)
- **Section 11.5 Interrupt priority in the 8051/52** (p. 337)
- **Section 11.6 Interrupt programming in C** (p. 340)
- **Chapter 12 LCD and Keyboard Interfacing** (p. 351)
- **Section 12.1 LCD interfacing** (p. 352)
- **Section 12.2 Keyboard interfacing** (p. 363)
- **Chapter 13 ADC, DAC, and Sensor Interfacing** (p. 373)
- **Section 13.1 Parallel and serial ADC** (p. 374)
- **Section 13.2 DAC interfacing** (p. 398)
- **Section 14.2**
- **Section 13.3 Sensor interfacing and signal conditioning** (p. 403)
- **Chapter 14 8051 Interfacing to External Memory** (p. 411)
- **Section 14.1 Semiconductor memory** (p. 412)
