

Table of contents

- **1 Introduction to Timing Verification**
- Introduction
- Overview of Timing Verification
- Interface Timing Analysis
- **2 Elements of Timing Verification**
- Introduction
- Clock Definitions
- More on STA
- Timing Analysis of Phase-Locked Loops
- **3 Timing in ASICs**
- Introduction
- Prelayout Timing
- Postlayout Timing
- ASIC Sign-Off Checklist
- **4 Programmable Logic Based Design**
- Introduction
- Programmable Logic Structures
- Design Flow
- Timing Parameters
- Timing Analysis
- HDL Synthesis
- Software Development Systems
- A PrimeTime
- B Pearl
- C TimingDesigner
- D Transistor-Level Timing Verification
- References
