

Table of contents

- **Petroleum Processing Overview**
- **The Origin of Petroleum**
- **Crude Assay**
- **Integrated Methodology for Characterization of Petroleum Samples and Its Application for Refinery Product Quality Modeling**
- **Catalytic Processes for Light Olefin Production**
- **Kinetics and Mechanics of Fluid Catalytic Cracking**
- **Hydrotreating and Hydrocracking**
- **Recent Advances in Hydrocracking**
- **Current Progress in Catalyst and Catalysis of Hydrotreating**
- **Ultra Deep Desulfurization of Diesel**
- **Ultra-Clean Diesel Fuel by Deep Desulfurization and Deep Dearomatization of Middle Distillates**
- **Synergistic Extractive Desulfurization Processes**
- **Advanced Reactor Internals for Hydroprocessing Units**
- **Environmental Pollution Control**
- **Index**
