

Table of Contents

- Contributing Authors p. ix
- Introduction John G. Hunter p. x
- Preface p. xi
- Acknowledgments p. xii
- 1 Anterior Abdominal Wall p. 1
 - General Principles of Access to the Abdomen and Preperitoneal Spaces p. 1
 - Anatomy and Specific Surgical Procedures p. 1
 - Muscles and Fascia p. 1
 - Arteries, Veins, and Nerves p. 2
 - Umbilicus and Midline Abdominal Wall p. 3
 - Choice of Laparoscopic Trocar Sites p. 3
 - Preperitoneal Space and Peritoneum p. 4
 - Preperitoneal Access p. 4
 - Ventral Hernia Repair p. 5
- 2 Peritoneal Cavity p. 23
 - Initial Laparoscopic View and Principles of Exposure p. 23
 - Anatomy and Specific Surgical Procedures p. 23
 - Peritoneal Reflections p. 23
 - Supramesocolic Viscera p. 24
 - Inframesocolic Viscera p. 24
 - Exploratory Laparoscopy p. 25
 - Omentum p. 26
 - Omental Resection or Harvest p. 26
- 3 Diaphragm, Hiatus, and Esophagus p. 45
 - Initial Laparoscopic View and Principles of Exposure p. 45
 - Anatomy and Specific Surgical Procedures p. 46
 - Liver p. 46
 - Diaphragm p. 46
 - Repair of Diaphragmatic Hernia p. 47
 - Esophageal Hiatus p. 47
 - Hiatal Hernia Repair p. 48
 - Esophagus p. 49
 - Esophagomyotomy p. 50
 - Vagus Nerves and Truncal Vagotomy p. 50
- 4 Stomach and Duodenum p. 79
 - Initial Laparoscopic View and Principles of Exposure p. 79
 - Anatomy and Specific Surgical Procedures p. 79
 - Vagus Nerves and Laparoscopic Vagotomy p. 79
 - Stomach, Laparoscopic Gastrostomy or Gastrectomy p. 80
 - Duodenum, Laparoscopic Plication of Perforated Ulcer or Pyloroplasty p. 82
- 5 Right Upper Quadrant: Liver, Gallbladder, and Extrahepatic Biliary Tract p. 101
 - Initial Laparoscopic View and Principles of Exposure p. 101
 - Anatomy and Specific Surgical Procedures p. 102
 - Liver p. 102

- Laparoscopic Liver Surgery p. 103
- Extrahepatic Biliary Tree p. 103
- Gallbladder and Laparoscopic Cholecystectomy p. 103
- Structures of the Hepatoduodenal Ligament, Laparoscopic Choledochotomy p. 105
- 6 Spleen and Pancreas p. 139
 - Initial Laparoscopic View and Principles of Exposure p. 139
 - Anatomy and Specific Surgical Procedures p. 139
 - Spleen p. 139
 - Laparoscopic Splenectomy p. 141
 - Pancreas p. 141
 - Laparoscopic Pancreatic Surgery p. 142
- 7 Small Intestine and Appendix p. 165
 - Initial Laparoscopic View and Principles of Exposure p. 165
 - Anatomy and Specific Surgical Procedures p. 165
 - Small Intestine p. 165
 - Jejunostomy p. 166
 - Small Bowel Resection p. 166
 - Meckel's Diverticulum p. 166
 - Resection of Meckel's Diverticulum p. 166
 - Appendix p. 167
 - Appendectomy p. 167
- 8 Colon and Rectum p. 185
 - Initial Laparoscopic View and Principles of Exposure p. 185
 - Anatomy and Specific Surgical Procedures p. 185
 - Topographic Relations p. 185
 - Right Colon p. 185
 - Transverse Colon p. 186
 - Left Colon p. 186
 - Rectum p. 187
 - Arteries, Veins, and Lymphatic Drainage p. 187
 - Laparoscopic Colostomy p. 188
 - Laparoscopic Colon Resection (Intraperitoneal) p. 188
 - Laparoscopic Approach to the Rectum p. 189
- 9 Pelvis Sean P. Hedican p. 211
 - Initial Laparoscopic View and Principles of Exposure p. 211
 - Anatomy and Specific Surgical Procedures p. 211
 - Male Pelvis p. 211
 - Topographic Relations p. 211
 - Ductus Deferens, Seminal Vesicles, and Bladder p. 212
 - Arteries, Veins, and Lymphatic Drainage p. 212
 - Pelvic Lymph Node Sampling or Dissection p. 213
 - Female Pelvis p. 214
 - Topographic Relations p. 214
 - Uterus, Ovaries, and Fallopian Tubes p. 214
 - Arteries, Veins, and Lymphatic Drainage p. 215
 - Gynecologic Laparoscopy p. 215

- 10 Inguinal Region Gene L. Colborn and Wendy Gram Brick p. 239
- Initial Laparoscopic View and Principles of Exposure p. 239
- Transperitoneal View p. 239
- Extraperitoneal Approach p. 240
- Anatomy and Specific Surgical Procedures p. 240
- Laparoscopic Inguinal Herniorrhaphy p. 245
- Ligation of Varicocele p. 245
- Exploration for Undescended Testis p. 245
- 11 Kidneys and Adrenal Glands Sean P. Hedican p. 267
- Initial Laparoscopic View and Principles of Exposure p. 267
- Anatomy and Specific Surgical Procedures p. 267
- Fascial Spaces of the Retroperitoneum p. 267
- Left Kidney and Adrenal Gland p. 268
- Topographic Relations p. 268
- Veins, Arteries, and Collecting System p. 268
- Laparoscopic Nephrectomy p. 269
- Left Adrenalectomy p. 269
- Right Kidney and Adrenal Gland p. 270
- Topographic Relations p. 270
- Veins, Arteries, and Collecting System p. 270
- Laparoscopic Right Adrenalectomy p. 270
- Subject Index p. 293
