

# Table of contents

- **Chapter 1 Introduction**
- **Chapter 2 The Site And Ecology**
- **2.1 Compact cities**
- **2.2 Reducing transport impacts**
- **2.3 In harmony with nature**
- **2.4 Local food production**
- **Chapter 3 Community And Culture**
- **3.1 Community participation**
- **3.2 Housing for all**
- **3.3 Training and employment**
- **3.4 Spaces for the community**
- **3.5 Promoting sustainability**
- **Chapter 4 Health And Well-Being**
- **4.1 Comfort**
- **4.2 Insensible Agents of disease**
- **4.3 Independence and identity**
- **4.4 Restorative environments**
- **Chapter 5 Materials**
- **5.1 Design For Longevity**
- **5.2 Waste As A Resource**
- **5.6 Waste Minimisation**
- **5.3 Avoiding resources depletion**
- **5.4 Minimising manufacturing impacts**
- **5.5 Materials and Energy**
- **Chapter 6 Energy**
- **6.1 Minimising energy needs**
- **6.2 Maximising efficiently**
- **6.3 'Green' energy sources**
- **Chapter 7 Water**
- **7.1 Minimising need and maximising efficiency**
- **7.3 Alternative water sources**
- **7.3 Reducing the use of mains drains**
- **8 Postscript**
- **Appendix 1 Projects overview**
- **Appendix 2 Location maps**
- **Appendix 3 Climate**
- **References and Bibliography**
- **Index**
