

# Table of contents

- **Preface** (p. ix)
- **Looking Ahead** (p. xiii)
- **Introduction to Principles and Procedures of Specifications Writing** (p. 1)
- **Principles** (p. 1)
- **Procedures** (p. 2)
- **Study Questions** (p. 2)
- **Part 1 Principles**
- **1. The Role of the Specifications** (p. 5)
- **Contract Documents** (p. 5)
- **Bidding Documents** (p. 5)
- **Specifications** (p. 5)
- **Project Manual** (p. 6)
- **Study Questions** (p. 8)
- **2. Relationship between Drawings and Specifications** (p. 9)
- **What Goes Where** (p. 9)
- **Drawings** (p. 9)
- **Specifications** (p. 9)
- **Coordinating the Design Process** (p. 10)
- **Resolving Conflicts** (p. 10)
- **Deviations from the General Rules** (p. 11)
- **Study Questions** (p. 12)
- **3. Organization of Specifications** (p. 13)
- **Historical Development of Specification Organization** (p. 13)
- **Need for Organizing Specifications** (p. 13)
- **CSI/CSC MasterFormat** (p. 14)
- **Using the MasterFormat** (p. 14)
- **Is MasterFormat a Specification Principle?** (p. 18)
- **Critique of 1995 MasterFormat** (p. 18)
- **Study Questions** (p. 20)
- **4. Concept of the Technical Section** (p. 21)
- **What is a Technical Section?** (p. 21)
- **Changing and Evolving Sections** (p. 22)
- **Broad-Scope and Narrow-Scope Sections** (p. 22)
- **Flexibility in Determining Section Scope** (p. 22)
- **MasterFormat** (p. 23)
- **Relationship of a Section to the Project Manual** (p. 23)
- **Study Questions** (p. 24)
- **5. Arrangement of the Technical Section** (p. 25)
- **Need for a Section Format** (p. 25)
- **Standardized SectionFormat** (p. 25)
- **Using the SectionFormat** (p. 27)
- **CSI SectionFormat** (p. 27)
- **Study Questions** (p. 31)
- **6. Types of Specifications** (p. 33)

- **Systems of Writing Specifications** (p. 33)
- **Performance Specifications** (p. 33)
- **Descriptive Specifications** (p. 34)
- **Reference Specifications** (p. 34)
- **Proprietary Specifications** (p. 35)
- **Reference Standards Agencies** (p. 35)
- **Study Questions** (p. 37)
- **7. Systems Building and Performance Specifications** (p. 39)
- **Historical Development** (p. 39)
- **Systems Building** (p. 39)
- **An Approach to Performance Specifying** (p. 40)
- **Pitfalls of Performance Specifying** (p. 42)
- **Study Questions** (p. 43)
- **8. Specifications Writing Techniques** (p. 45)
- **Scope of Work** (p. 45)
- **Work of Other Sections** (p. 46)
- **Grandfather Clauses** (p. 47)
- **Residuary Legatee** (p. 47)
- **Duplication--Repetition** (p. 48)
- **Imperative Mood** (p. 48)
- **Study Questions** (p. 49)
- **Part 2 Bidding Procedures**
- **9. Bidding Requirements** (p. 53)
- **Three Basic Bidding Documents** (p. 53)
- **Invitation to Bid** (p. 53)
- **Instructions to Bidders** (p. 54)
- **Bid Form** (p. 57)
- **Study Questions** (p. 68)
- **10. Bonds, Guarantees, Warranties** (p. 69)
- **Bid Bond** (p. 69)
- **Surety Bonds** (p. 69)
- **Contractor Defaults** (p. 69)
- **AIA Bond Forms** (p. 69)
- **Amount of Bonds** (p. 71)
- **Statutory and Nonstatutory Bonds** (p. 71)
- **Warranty, Guarantee** (p. 71)
- **The General Warranty** (p. 78)
- **Special Warranties** (p. 78)
- **Correction of Work** (p. 79)
- **Writing a Special Warranty** (p. 79)
- **Study Questions** (p. 82)
- **Part 3 Conditions of the Contract**
- **11. General Conditions and Supplements** (p. 85)
- **Contractual Relationships** (p. 85)
- **Architect (AIA) General Conditions** (p. 85)
- **Engineer (EJCDC) General Conditions** (p. 85)

- **Differences between AIA and EJCDC General Conditions** (p. 86)
- **Use of Standardized AIA and EJCDC General Conditions** (p. 86)
- **Other Private-Sector Sources of General Conditions** (p. 86)
- **Federal Government General Conditions** (p. 87)
- **Other Nonfederal General Conditions** (p. 88)
- **Supplementary Conditions** (p. 88)
- **Changes in AIA A201-97** (p. 88)
- **Modifying the General Conditions** (p. 89)
- **Format of Supplementary Conditions** (p. 90)
- **Liquidated Damages** (p. 91)
- **Insurance** (p. 91)
- **Conflicts between Documents** (p. 94)
- **Preprinted General Conditions** (p. 95)
- **Study Questions** (p. 96)
- **Part 4 Procedures**
- **12. General Requirements** (p. 229)
- **Scope of Division 1** (p. 229)
- **CSI 1995 Division 1** (p. 229)
- **Sections Pertaining to General Conditions** (p. 229)
- **Note to Specifiers** (p. 230)
- **Recommended Division 1 Sections** (p. 231)
- **Study Questions** (p. 248)
- **13. Specifying Materials** (p. 249)
- **Methods of Specifying Materials** (p. 249)
- **Or Equal Specifications** (p. 249)
- **Open Specifications** (p. 250)
- **Base Bid or Closed Specifications** (p. 250)
- **Bidder's Choice or Restricted Specifications** (p. 250)
- **Bidder's List of Substitutions** (p. 251)
- **Product Approval Standards** (p. 251)
- **Study Questions** (p. 253)
- **14. Specification Language** (p. 255)
- **General Rules** (p. 255)
- **Maxims** (p. 255)
- **Study Questions** (p. 260)
- **15. Specification Reference Sources** (p. 261)
- **Textbooks** (p. 261)
- **Materials Standards** (p. 261)
- **Guide Specifications** (p. 262)
- **Journals and Periodicals** (p. 262)
- **Building Codes and Ordinances** (p. 263)
- **Materials Investigations** (p. 263)
- **Association Standards** (p. 263)
- **Manufacturers' Catalog Files** (p. 264)
- **General References** (p. 264)
- **CSI Technical Documents** (p. 269)

- **AIA Technical Documents** (p. 269)
- **EJCDC Documents** (p. 269)
- **Study Questions** (p. 271)
- **16. Materials Evaluation** (p. 273)
- **Factors to Consider** (p. 273)
- **Using Performance Characteristics** (p. 273)
- **New Products** (p. 273)
- **Study Questions** (p. 276)
- **17. Specifications Writing Procedures** (p. 277)
- **Recommended Procedures** (p. 277)
- **Preliminary or Outline Specifications** (p. 277)
- **Project Manual Checklist** (p. 277)
- **Writing the Specification** (p. 278)
- **Study Questions** (p. 283)
- **18. Computerized Specifications** (p. 285)
- **Introduction** (p. 285)
- **The First Two Decades of Automation** (p. 285)
- **Computer Terms** (p. 286)
- **Transforming the Specification Process** (p. 287)
- **Word Processing Software** (p. 287)
- **Computers** (p. 288)
- **Selecting a Method of Computerized Specifying** (p. 288)
- **Master Texts** (p. 290)
- **Study Questions** (p. 291)
- **19. Master Texts and Systems** (p. 293)
- **Need for Master Texts** (p. 293)
- **The Specifier's Own Stock Text** (p. 293)
- **Guide Specifications and Intact Masters** (p. 294)
- **CSRF's SpecText** (p. 294)
- **ARCOM Masterspec** (p. 295)
- **Federal Civilian Agency Texts** (p. 295)
- **U.S. Military Texts** (p. 296)
- **Specsintact (NASA)** (p. 296)
- **National Institute of Building Sciences (NIBS)** (p. 296)
- **State, County, and City Government Masters** (p. 297)
- **Abbreviated Specifications** (p. 297)
- **Computers--Keys to Data Storage, Retrieval, and Manipulation** (p. 298)
- **Precautions** (p. 300)
- **Conclusion** (p. 300)
- **Study Questions** (p. 301)
- **20. Physical Format and Style** (p. 303)
- **21. Addenda** (p. 307)
- **Definition** (p. 307)
- **Purpose** (p. 307)
- **Language of Addenda** (p. 307)
- **Precautions** (p. 307)

- **Format of Addenda** (p. 308)
- **Appendix A Preliminary Specifications for University Hospital** (p. 311)
- **Appendix B Project Manual Checklist** (p. 317)
- **Appendix C Answers to Study Questions** (p. 329)
- **Index** (p. 333)
