

# Table of contents

- **ABC note**
- **Preface**
- **1 Signals And Sequences Preview**
- **Basic Concepts and Illustrative Problems**
- **Solved Examples and MATLAB(r) Applications**
- **Reinforcement Problems**
- **Tables**
- **Definitions, Techniques, and Connections**
- **MATLAB(r) Functions Used**
- **Annotated Bibliography**
- **Answers**
- **2 Continuous Systems Preview**
- **Basic Concepts and Illustrative Problems**
- **Solved Examples and MATLAB(r) Applications**
- **Reinforcement and Exploration Problems**
- **Tables**
- **Definitions, Techniques, and Connections**
- **MATLAB(r) Functions Used**
- **Annotated Bibliography**
- **Answers**
- **3 Laplace Transforms And Applications Preview**
- **Basic Concepts and Illustrative Problems**
- **Solved Examples and MATLAB(r) Applications**
- **Reinforcement and Exploration Problems**
- **Definitions, Techniques, and Connections**
- **MATLAB(r) Functions Used**
- **Annotated Bibliography**
- **Answers**
- **Tables**
- **4 Frequency Response Of Continuous Systems Preview**
- **Basic Concepts and Illustrative Problems**
- **Solved Examples and MATLAB(r) Applications**
- **Reinforcement and Exploration Problems**
- **Definitions, Techniques, and Connections**
- **MATLAB(r) Functions Used**
- **Annotated Bibliography**
- **Answers**
- **Retrospective: Chapters 2, 3, and 4**
- **5 Continuous-Time Fourier Series And Transforms Preview**
- **Basic Concepts and Illustrative Problems**
- **Solved Examples and MATLAB(r) Applications**
- **Reinforcement and Exploration Problems**
- **Definitions, Techniques, and Connections**
- **MATLAB(r) Functions Used**

- **Annotated Bibliography**
- **Answers**
- **Tables**
- **6 State-space topics for continuous systems Preview**
- **Basic Concepts and Illustrative Problems**
- **Solved Examples and MATLAB(r) Applications**
- **Reinforcement and Exploration Problems**
- **Definitions, Techniques, and Connections**
- **MATLAB(r) Functions Used**
- **Annotated Bibliography**
- **Answers**
- **Retrospective: Continuous-Time Systems (CHAPTERS 2-6)**
- **7 Discrete Systems Preview**
- **Basic Concepts and Illustrative Problems**
- **Solved Examples and MATLAB(r) Applications**
- **Reinforcement and Exploration Problems**
- **Definitions, Techniques, and Connections**
- **MATLAB(r) Functions Used**
- **Annotated Bibliography**
- **Answers**
- **8 Z-Transforms And Applications Preview**
- **Basic Concepts and Illustrative Problems**
- **Solved Examples and MATLAB(r) Applications**
- **Reinforcement and Exploration Problems**
- **Definitions, Techniques, and Connections|2**
- **Answers**
- **Tables**
- **9 Frequency Response oDiscrete Systems Preview**
- **Basic Concepts and Illustrative Problems**
- **Solved Examples and MATLAB(r) Applications**
- **Reinforcement and Exploration Problems**
- **Definitions, Techniques, and Connections**
- **MATLAB(r) Functions Used**
- **Annotated Bibliography**
- **Answers**
- **Retrospective: Chapters 7, 8, and 9**
- **10 Discrete Fourier Transforms Preview**
- **Basic Concepts and Illustrative Problems**
- **Solved Examples and MATLAB(r) Applications**
- **Reinforcement and Exploration Problems**
- **Definitions, Techniques, and Connections**
- **MATLAB(r) Functions Used**
- **Annotated Bibliography**
- **Answers**
- **11 State-Space Topics For Discrete Systems Preview**
- **Basic Concepts and Illustrative Problems**

- **Solved Examples and MATLAB(r) Applications**
- **Reinforcement and Exploration Problems**
- **Definitions, Techniques, and Connections**
- **MATLAB(r) Functions Used**
- **Annotated Bibliography**
- **Answers**
- **Retrospective: Discrete Systems (CHAPTERS 7-11)**
- **Appendix A Matlab(R): An Overview**
- **Appendix B Useful Formulae And Definitions**
- **Index**
