

- Part 1 Operating Systems Theory
- 1 Overview
- 2 Memory Management, Early Systems
- 3 Memory management, Recent Systems
- 4 Processor Management
- 5 Process Management
- 6 Concurrent Processes
- 7 Device Management
- 8 File Management
- 9 Network Organization Concepts
- 10 Management of Network Functions
- 11 System Management
- Part 2 Operating Systems in Practice
- 12 MS-DOS Operating System
- 13 Windows 2000 Operating System
- 14 UNIX Operating System
- 15 Open VMS Alpha Operating System
- 16 OS/390 Operating System
- Appendices A Command Translation Table
- B Guide to IBM Acronyms
- C Guide to Microsoft Acronyms
- D Guide to Graphical User Interfaces
- E ACM Code of Ethics and Professional Conduct
