

- **Preface**
- **Glass in modern architecture**
- **Manufacturing processes and window glass functions**
- **Visual functions (light and heat, view in and out, daylight, appearance)**
- **Thermal functions (thermal comfort, heat loss, heat gain, heat balance)**
- **Mechanical functions (durability, strength)**
- **Resistance to natural forces (wind and snow, water, thermal stress)**
- **Resistance to man-made forces (personal, explosive, bullet, burglar)**
- **Other functions (electromagnetic shielding, fire existence, sound insulation)**
- **Appendices**
- **Index**
