

Table of contents

- **Chapter 1 Physical Properties of Gases and Principles of Gas Movement** (p. 1)
- **Chapter 2 Compressed Gases: Manufacture, Storage, and Piping Systems** (p. 21)
- **Chapter 3 Gas Delivery Systems: Regulators, Flowmeters, and Therapy Devices** (p. 55)
- **Chapter 4 Clinical Hyperbaric Oxygen Chambers and Related Respiratory Care Equipment** (p. 87)
- **Chapter 5 Humidification** (p. 101)
- **Chapter 6 Aerosolized Medication Delivery** (p. 133)
- **Chapter 7 Airway and Suction Equipment** (p. 157)
- **Chapter 8 Manual and Gas-Powered Resuscitators** (p. 187)
- **Chapter 9 Blood Gases: Measurement of pH, Pco₂, Po₂, and Related Critical Care Analytes** (p. 205)
- **Chapter 10 Noninvasive Respiratory Monitoring Equipment** (p. 247)
- **Chapter 11 Flow and Volume Measuring Devices** (p. 283)
- **Chapter 12 Bedside Monitoring of Respiratory Mechanics** (p. 303)
- **Chapter 13 Cardiovascular Monitoring** (p. 325)
- **Chapter 14 Chest Physiotherapy, Incentive Spirometry, Intermittent Positive-Pressure Breathing, Secretion Clearance, and Inspiratory Muscle Training** (p. 339)
- **Chapter 15 Classification of Mechanical Ventilators** (p. 359)
- **Chapter 16 Mechanical Ventilators** (p. 395)
- **Chapter 17 Transport Ventilators** (p. 527)
- **Chapter 18 Home Mechanical Ventilation Equipment** (p. 567)
- **Chapter 19 Noninvasive Ventilation** (p. 593)
- **Chapter 20 High-Frequency Ventilators** (p. 613)
- **Chapter 21 Spontaneous Breathing Systems: IMV and CPAP** (p. 631)
- **Chapter 22 Expiratory Pressure Valves** (p. 647)
- **Chapter 23 Extracorporeal Life Support** (p. 657)
- **Chapter 24 Decontamination of Respiratory Care Equipment: What Can and Should Be Done** (p. 667)
- **Chapter 25 Information Management Systems** (p. 677)
- **Chapter 26 Approval and Surveillance of Medical Devices** (p. 699)
- **Chapter 27 Evaluating Medical Devices** (p. 709)
- **Chapter 28 Inhaled Nitric Oxide** (p. 733)
