

Table of Contents

- Contributing Authors p. ix
- Foreword James Holland p. xiii
- Foreword Peter Josef Ell p. xv
- Preface p. xvii
- Part I Overview
- 1 Nuclear Oncology Imaging and Therapy: An Overview Stanley J. Goldsmith p. 1
- 2 Instrumentation Jonathan M. Links and Horace H. Hines p. 13
- 3 Radiopharmaceuticals in Oncology Shankar Vallabhajosula p. 31
- 4 Multidrug Resistance
- Part A Breast Cancer David R. Piwnica-Worms and Kathryn E. Luker and Paula M. Fracasso p. 63
- Part B Other Tumors Lale Kostakoglu p. 73
- 5 Radiolabeled Monoclonal Antibodies
- Part A Imaging Lionel S. Zuckier and Renee M. Moadel-Sernick p. 83
- Part B Therapy Chaitanya R. Divgi p. 93
- 6 Radiopharmaceutical Therapy of Osseous Metastatic Disease Edward B. Silberstein p. 103
- 7 Pediatric Nuclear Oncology Leonard P. Connolly and Laura A. Drubach and S. Ted Treves p. 111
- 8 Cardiotoxicity in Cancer Therapy Jean C. Maublant and Francesco Giammarile and Marc Ferriere p. 144
- 9 Nephrotoxicity in Cancer Therapy Gary F. Gates p. 149
- Part II Applications
- Section A Central Nervous System Neoplasia
- 10 Positron Emission Tomography Imaging Peter S. Conti p. 159
- 11 Cerebrospinal Fluid and Shunt Imaging Franklin C. L. Wong and Donald A. Podoloff p. 183
- Section B Head and Neck Carcinoma
- 12 Positron Emission Tomography Imaging Val J. Lowe and Brendan C. Stack, Jr. p. 187
- Section C Thyroid and Parathyroid Neoplasia
- 13 Thyroid Carcinoma Stanley J. Goldsmith p. 197
- 14 Parathyroid Scintigraphy Raymond Taillefer p. 221
- 15 Medullary Cancer of the Thyroid: Radiolabeled Antibody Therapy Malik E. Juweid and David M. Goldenberg p. 245
- Section D Lung Carcinoma
- 16 Positron Emission Tomography Imaging Abdulaziz A. Al-Sugair and R. Edward Coleman p. 251
- 17 Labeled Peptide Scintigraphy Hirsch Handmaker and Jay E. Blum p. 265
- Section E Breast Carcinoma
- 18 Scintimammography with Single-Photon Tracers John R. Buscombe and Iraj Khalkhali p. 273
- 19 Positron Emission Tomography Imaging Lee P. Adler and George Bakale p. 289
- 20 Lymphoscintigraphy and Lymphatic Mapping Claudia G. Berman and Norman J. Brodsky p. 297

- 21 Monoclonal Antibody Imaging Lamk M. Lamki and Bruce J. Barron p. 313
- 22 Radionuclide Therapy Sally J. DeNardo and Pablo J. Cagnoni and Jeffrey Y. C. Wong and Carol Richman p. 331
- Section F Gastrointestinal and Pancreatic Carcinoma
- 23 Positron Emission Tomography Imaging Carl K. Hoh p. 343
- Section G Colorectal Carcinoma
- 24 Positron Emission Tomography Imaging: Diagnosis and Management Dominique Delbeke and Peter E. Valk p. 351
- 25 Radiolabeled Antibody Detection and Therapy David M. Goldenberg p. 361
- Section H Neuroendocrine Neoplasia
- 26 Scintigraphy and Radionuclide Therapy Marion de Jong and Roelf Valkema and Wout A. P. Breeman and Willem H. Bakker and Peter P. M. Kooij and Theo J. Visser and Stan Pauwels and Eric P. Krenning p. 373
- Section I Hepatic Neoplasia
- 27 Primary Hepatic Tumors: Receptor Imaging and Differential Diagnosis Irene J. Virgolini and Amir Kurtaran p. 389
- 28 Hepatic Artery Infusion
- Part A Targeted Therapy John R. Buscombe p. 397
- Part B Hepatic Artery Pump Evaluation Homer Macapinlac p. 399
- Section J Genitourinary Carcinoma
- 29 Positron Emission Tomography Imaging Tarik Belhocine and Roland Hustinx and Anne Devillers and Frederic Daenen and Catherine Beckers and Patrick Paulus and Pierre Rigo p. 403
- 30 Renal Carcinoma: Monoclonal Antibody Therapy Chaitanya R. Divgi and Egbert Oosterwijk and Neil H. Bander and Sydney Welt and Steven M. Larson and Lloyd Old p. 417
- Section K Prostate Carcinoma
- 31 Monoclonal Antibody Imaging Michael K. Haseman p. 423
- 32 Monoclonal Antibody Therapy Stanley J. Goldsmith and Neil H. Bander p. 433
- Section L Ovarian Carcinoma
- 33 Radionuclide Imaging Gidon Lieberman and John R. Buscombe p. 441
- 34 Intraperitoneal Radionuclide Therapy Ruby F. Meredith and Daniel J. Macey p. 449
- Section M Adrenal Neoplasia
- 35 Adrenal Scintigraphy Milton D. Gross and Brahm Shapiro p. 461
- Section N Hodgkin's Disease and Non-Hodgkin's Lymphoma
- 36 [⁶⁷Ga] Scintigraphy Dov Front and Ora Israel p. 475
- 37 Positron Emission Tomography Imaging Sven N. Reske and Inga Buchmann p. 487
- 38 Monoclonal Antibody Therapy Richard L. Wahl p. 493
- Section O Musculoskeletal Neoplasia
- 39 Primary Bone Tumors: Thallium-201, Technetium-99m Sestamibi, and Fluorine-18 Deoxyglucose Imaging Alan D. Waxman and Hussein M. Abdel Dayem p. 509
- 40 Scintigraphy of Bone Metastases Partha Sinha and Leonard M. Freeman p. 525
- Section P Melanoma
- 41 Sentinel Node in the Management of Malignant Melanoma Claudia G. Berman and Norman J. Brodsky p. 545

- 42 Positron Emission Tomography Imaging George M. Segall and Denise L. Johnson p. 557
- Subject Index p. 563
