

Table of Contents

- Introduction: A View of the Past Exercise Physiology: Roots and Historical Perspectives: Interview with Dr. Charles Tipton p. xvii
- Part 1
- Section 1 Nutrition: The Base for Human Performance: Interview with Dr. David Costill
- Chapter 1 Carbohydrates, Lipids, and Proteins p. 6
- Part 1 Carbohydrates p. 7
- Part 2 Lipids p. 18
- Part 3 Proteins p. 32
- Chapter 2 Vitamins, Minerals, and Water p. 47
- Part 1 Vitamins p. 48
- Part 2 Minerals p. 58
- Part 3 Water p. 74
- Chapter 3 Optimal Nutrition for Exercise p. 82
- Section 2 Energy for Physical Activity: Interview with Dr. John Holloszy
- Chapter 4 Energy Value of Food p. 108
- Chapter 5 Introduction to Energy Transfer p. 115
- Chapter 6 Energy Transfer in the Body p. 131
- Part 1 Phosphate Bond Energy p. 132
- Part 2 Energy Release from Food p. 138
- Chapter 7 Energy Transfer in Exercise p. 157
- Chapter 8 Measurement of Human Energy Expenditure p. 174
- Chapter 9 Human Energy Expenditure During Rest and Physical Activity p. 187
- Part 1 Energy Expenditure at Rest p. 188
- Part 2 Energy Expenditure in Physical Activity p. 194
- Chapter 10 Energy Expenditure during Walking, Jogging, Running, and Swimming p. 201
- Chapter 11 Individual Differences and Measurement of Energy Capacities p. 222
- Section 3 Systems of Energy Delivery and Utilization: Interview with Dr. Loring Rowell
- Chapter 12 Pulmonary Structure and Function p. 252
- Chapter 13 Gas Exchange and Transport p. 270
- Part 1 Gaseous Exchange in the Lungs and Tissues p. 271
- Part 2 Oxygen Transport p. 275
- Part 3 Transport of Carbon Dioxide p. 281
- Chapter 14 Dynamics of Pulmonary Ventilation p. 285
- Part 1 Regulation of Pulmonary Ventilation p. 286
- Part 2 Pulmonary Ventilation during Exercise p. 290
- Part 3 Acid-Base Regulation p. 298
- Chapter 15 The Cardiovascular System p. 305
- Chapter 16 Cardiovascular Regulation and Integration p. 325
- Chapter 17 Functional Capacity of the Cardiovascular System p. 344
- Chapter 18 Skeletal Muscle: Structure and Function p. 358
- Chapter 19 Neural Control of Human Movement p. 383

- Chapter 20 The Endocrine System: Organization and Acute and Chronic Responses to Exercise p. 408
- Part 2
- Section 4 Enhancement of Energy Capacity: Interview with Dr. Bengt Saltin
- Chapter 21 Training for Anaerobic and Aerobic Power p. 458
- Chapter 22 Muscular Strength: Training Muscles to Become Stronger p. 500
- Part 1 Strength Measurement and Resistance Training p. 501
- Part 2 Structural and Functional Adaptations to Resistance Training p. 529
- Chapter 23 Special Aids to Exercise Training and Performance p. 548
- Section 5 Exercise Performance and Environmental Stress
- Chapter 24 Exercise at Medium and High Altitude p. 602
- Chapter 25 Exercise and Thermal Stress p. 623
- Part 1 Mechanisms of Thermoregulation p. 624
- Section 6 Body Composition, Energy Balance, and Weight Control
- Part 2 Thermoregulation and Environmental Stress During Exercise p. 633
- Chapter 26 Sport Diving p. 654
- Chapter 27 Microgravity: The Last Frontier p. 678
- Chapter 28 Body Composition Assessment p. 752
- Chapter 29 Physique, Performance, and Physical Activity p. 794
- Chapter 30 Overweight, Obesity, and Weight Control p. 820
- Part 1 Obesity p. 820
- Part 2 Principles of Weight Control: Diet and Exercise p. 840
- Section 7 Exercise, Successful Aging, and Disease Prevention: Interview with Dr. Steven Blair
- Chapter 31 Physical Activity, Health, and Aging p. 868
- Part 1 Physical Activity in the Population p. 871
- Part 2 Aging and Physiologic Function p. 877
- Part 3 Physical Activity, Health, and Longevity p. 888
- Part 4 Coronary Heart Disease p. 893
- Chapter 32 Clinical Exercise Physiology for Cancer, Cardiovascular, and Pulmonary Rehabilitation p. 914
- On the Horizon: Interview with Dr. Frank Booth
- Chapter 33 Molecular Biology--A New Vista for Exercise Physiology p. 967
- Appendix A The Metric System and Conversion Constants in Exercise Physiology p. 1051
- Appendix B Nutritive Values for Common Foods, Alcoholic and Nonalcoholic Beverages, and Specialty and Fast-Food Items p. 1063
- Appendix C Energy Expenditure in Household, Occupational, Recreational, and Sports Activities p. 1103
- Appendix D Metabolic Computations in Open-Circuit Spirometry p. 1117
- Appendix E Honors and Awards of Interviewees p. 1121
