

# Table of contents

- **PART I Basic Principles (p. 1)**
- **1 Clinical Approach to Cardiovascular Magnetic Resonance Techniques (p. 1)**
- **2 Magnetic Resonance Angiography Techniques (p. 19)**
- **3 Techniques for Cardiovascular Computed Tomography (p. 37)**
- **4 Cardiac Anatomy and Physiology: Imaging Aspects (p. 53)**
- **5 Blood Flow Measurements (p. 71)**
- **6 Quantification in Cardiac Magnetic Resonance Imaging and Computed Tomography (p. 91)**
- **7 Magnetic Resonance Contrast Media (p. 107)**
- **Part II Acquired Heart Disease (p. 121)**
- **8 Magnetic Resonance of Cardiomyopathies and Myocarditis (p. 121)**
- **9 Pericardial Diseases (p. 137)**
- **10 Arrhythmogenic Right Ventricular Cardiomyopathy (p. 154)**
- **11 Cardiac Masses (p. 162)**
- **12 Valvular Heart Disease (p. 183)**
- **Part III Ischemic Heart Disease (p. 198)**
- **13 Myocardial Perfusion in Ischemic Heart Disease (p. 198)**
- **14 Left Ventricular Function in Ischemic Heart Disease (p. 215)**
- **15 Regional Left Ventricular Function in Ischemic Heart Disease: Determination of Viability (p. 224)**
- **16 Assessment of Myocardial Viability by Contrast Enhancement (p. 233)**
- **17 Tissue Characterization of Ischemic Myocardial Injury (p. 263)**
- **18 Coronary Magnetic Resonance Angiography: Technical Approaches (p. 280)**
- **19 Coronary Artery Imaging-Clinical Applications (p. 299)**
- **20 Coronary Blood Flow Measurements (p. 316)**
- **21 Cardiovascular Magnetic Resonance and Computed Tomography of Coronary Artery Bypass Grafts (p. 325)**
- **22 Computed Tomography Imaging of Coronary Calcification (p. 340)**
- **23 Coronary Computed Tomography Angiography (p. 351)**
- **24 Atherosclerotic Plaque Imaging (p. 361)**
- **25 Plaque Characterization-Computed Tomography (p. 375)**
- **Part IV Congenital Heart Disease (p. 385)**
- **26 Congenital Heart Disease: Magnetic Resonance Evaluation of Morphology and Function (p. 385)**
- **27 Magnetic Resonance Imaging of Function and Flow in Postoperative Congenital Heart Disease (p. 411)**
- **28 Adult Congenital Heart Disease (p. 429)**
- **Part V Vascular Diseases (p. 441)**
- **29 Magnetic Resonance Imaging and Computed Tomography of Thoracic Aorta (p. 441)**
- **30 Magnetic Resonance Angiography Abdominal Aorta and Renal and Mesenteric Vessels (p. 469)**
- **31 Multidetector Computed Tomographic Angiography of the Abdominal Arteries (p. 498)**

- **32 Magnetic Resonance and Computed Tomography Angiography of Peripheral Arteries** (p. 514)
- **33 Computed Tomography Angiography and Magnetic Resonance Angiography of the Extracranial Carotid Arteries** (p. 538)
- **Part VI Interventional Magnetic Resonance Imaging** (p. 561)
- **34 Catheter Tracking and Devices** (p. 561)
- **35 Endovascular Interventional Magnetic Resonance Imaging** (p. 576)
- **36 Endovascular Interventions-Congenital Heart Disease** (p. 593)
- **37 Magnetic Resonance-Guided Cardiac Catheterization** (p. 610)
- **38 Endovascular Delivery of Gene and Stem Cell Therapy** (p. 629)
- **Index** (p. 645)
