

- Preface p. v
- Chapter 1 Introduction to Biomedical Engineering Design p. 1
  - 1.1 What Is Design? p. 2
  - 1.2 What Is the Thrust of this Text? p. 3
  - 1.3 What Might Be Designed? p. 3
  - 1.4 The Essentials of Design p. 4
  - 1.5 How this Text Is Structured p. 5
  - 1.6 The Real Purpose of this Text p. 8
  - Homework Exercises p. 8
  - References p. 9
- Chapter 2 Fundamental Design Tools p. 11
  - 2.1 Brainstorming and Idea Generation Techniques p. 11
  - 2.2 Conventional Solution Searches p. 15
  - 2.3 Function Analysis p. 17
  - 2.4 Elementary Decision-Making Techniques p. 20
  - 2.5 Objective Trees p. 23
  - 2.6 Introduction to Quality Function Deployment Diagrams p. 23
  - 2.7 Introduction to TRIZ p. 25
  - 2.8 Summary p. 27
  - Homework Exercises p. 28
  - References p. 29
- Chapter 3 Design Management, Documentation, and Reporting p. 31
  - 3.1 Design Team Construction and Management p. 32
  - 3.2 Documentation Techniques and Requirements p. 39
  - 3.3 Introduction to Databases p. 44
  - 3.4 Reporting Techniques: Presentations, Posters, and Reports p. 47
  - Homework Exercises p. 51
  - References p. 52
- Chapter 4 Product Definition p. 55
  - 4.1 The Product Definition Process p. 56
  - 4.2 Overview of Quality Function Deployment p. 59
  - 4.3 The QFD Process p. 59
  - 4.4 Summary of QFD p. 65
  - Homework Exercises p. 65
  - References p. 66
- Chapter 5 Product Documentation p. 69
  - 5.1 Documents p. 70
  - 5.2 Records p. 87
  - 5.3 A Comparison of the Medical Device Records p. 92
  - Homework Exercises p. 95
  - References p. 96
- Chapter 6 Product Development p. 99
  - 6.1 Hardware and Software Techniques p. 100
  - 6.2 Structured and Unstructured Design Techniques p. 131

- Homework Exercises p. 150
- References p. 151
- Chapter 7 Computer-Aided Design p. 155
  - 7.1 Definitions of CAD, CAM, and CAE p. 156
  - 7.2 The Computer-Aided Design Process p. 157
  - 7.3 Components of CAD/CAM/CAE Systems p. 159
  - 7.4 Windows-Based CAD Systems p. 165
  - 7.5 Rapid Prototyping p. 165
- Homework Exercises p. 168
- References p. 169
- Chapter 8 Human Factors Issues p. 171
  - 8.1 What Is Human Factors? p. 171
  - 8.2 Human Factors Process p. 179
  - 8.3 Safety p. 184
  - 8.4 Documentation p. 184
  - 8.5 Anthropometry p. 186
  - 8.6 Labeling p. 190
  - 8.7 Software p. 191
  - 8.8 Feedback p. 193
  - 8.9 Prompts p. 194
  - 8.10 Defaults p. 194
  - 8.11 Error Management/Data Protection p. 195
- Homework Exercises p. 195
- References p. 196
- Chapter 9 Industrial Design p. 199
  - 9.1 Set Usability Goals p. 201
  - 9.2 Design User Interface Concepts p. 201
  - 9.3 Model the User Interface p. 204
  - 9.4 Test the User Interface p. 205
  - 9.5 Specify the User Interface p. 205
  - 9.6 Additional Industrial Design Considerations p. 207
- Homework Exercises p. 217
- References p. 218
- Chapter 10 Biomaterials and Materials Selection p. 219
  - 10.1 The FDA and Biocompatibility p. 221
  - 10.2 International Regulatory Efforts p. 227
  - 10.3 Device Category and Choice of Test Program p. 228
  - 10.4 Preparation of Extracts p. 231
  - 10.5 Biological Control Tests p. 233
  - 10.6 Tests for Biological Evaluation p. 234
  - 10.7 Alternative Test Methods p. 240
  - 10.8 Endnote p. 241
- Homework Exercises p. 241
- 11.1 Medical Case Example p. 246

- References p. 242
- Chapter 11 Safety Engineering: Devices and Processes p. 245
- 11.2 Safety in Design p. 247
- 11.3 Medical Case Example - Revisited p. 249
- 11.4 Process Improvement p. 251
- 11.5 Miscellaneous Issues p. 251
- 11.6 Other Process Issues p. 251
- 11.7 Summary p. 252
- Homework Exercises p. 253
- References p. 254
- Chapter 12 Prototyping and Testing p. 255
- 12.1 Prototyping p. 255
- 12.2 Testing p. 258
- 12.3 Types of Testing p. 263
- Homework Exercises p. 270
- References p. 272
- Chapter 13 Quality Control and Improvement, Reliability, and Liability p. 275
- 13.1 Reliability versus Unreliability p. 276
- 13.2 Quality versus Reliability p. 276
- 13.3 The Definition of Reliability p. 277
- 13.4 History of Reliability p. 279
- 13.5 Types of Reliability p. 280
- 13.6 Device Reliability p. 284
- 13.7 Optimizing Reliability p. 286
- 13.8 Reliability's Effect on Medical Devices p. 287
- 13.9 Product Liability p. 287
- 13.10 Conclusion p. 297
- Homework Exercises p. 298
- References p. 299
- Chapter 14 The Food and Drug Administration p. 301
- 14.1 Recent History of Device Regulation p. 302
- 14.2 Device Classification p. 304
- 14.3 Registration and Listing p. 307
- 14.4 The 510(k) Process p. 308
- 14.5 PMA Application p. 314
- 14.6 Investigational Device Exemptions p. 317
- 14.7 Good Laboratory Practices p. 320
- 14.8 Good Manufacturing Practices p. 320
- 14.9 Human Factors p. 321
- 14.10 Design Control p. 321
- 14.11 The FDA and Software p. 323
- 14.12 Software Classification p. 324
- 14.13 The FDA Inspection p. 325
- 14.14 Advice on Dealing with the FDA p. 326

- 14.15 Manufacturer and User Facility Device Experience Database p. 327
- Homework Exercises p. 327
- References p. 328
- Chapter 15 Licensing, Patents, Copyrights, and Trade Secrets p. 333
- 15.1 Patents p. 334
- 15.2 Copyrights p. 345
- 15.3 Trademarks p. 350
- 15.4 Trade Secrets p. 355
- Homework Exercises p. 359
- References p. 360
- Chapter 16 Premarket Testing and Validation p. 363
- 16.1 Standard Tests p. 364
- 16.2 Allocation of Software Testing p. 367
- 16.3 Verification and Validation Test Method Commonality p. 368
- 16.4 Validation and Test Overview p. 370
- 16.5 The Essentials of Software Testing p. 374
- 16.6 Drug Development p. 377
- 16.7 Clinical Trials p. 378
- Homework Exercises p. 379
- References p. 380
- Chapter 17 System Testing p. 383
- Homework Exercises p. 390
- 17.1 Purpose p. 383
- 17.2 Failure Definition p. 385
- 17.3 Types of Testing p. 385
- References p. 391
- Chapter 18 Regulations Tracking p. 393
- 18.1 Regulations p. 394
- 18.2 Standards p. 396
- 18.3 Coping with Increased Quality Assurance and Regulatory Issues p. 400
- 18.4 Medical Device Directives p. 400
- 18.5 ISO 9000 p. 412
- 18.6 Canadian Regulations p. 413
- 18.7 Pacific Rim p. 419
- Homework Exercises p. 420
- References p. 421
- Chapter 19 Manufacturing and Quality Control p. 425
- 19.1 A History of GMPs p. 426
- 19.2 The GMP Regulation p. 428
- 19.3 Design for Manufacturability p. 431
- 19.4 Design for Assembly p. 432
- 19.5 The Manufacturing Process p. 435
- Homework Exercises p. 439
- References p. 439

- Chapter 20 Product Issues p. 441
- 20.1 Product Safety and Legal Issues p. 441
- 20.2 Accident Reconstruction and Forensics p. 456
- Homework Exercises p. 461
- References p. 462
- Chapter 21 Professional Issues p. 465
- 21.1 BME Related Professional Societies p. 465
- 21.2 Standards Setting Groups p. 468
- 21.3 Professional Engineering Licensure p. 470
- 21.4 Code of Ethics p. 472
- 21.5 Forensics and Consulting p. 473
- 21.6 Continuing Education p. 475
- Homework Exercises p. 475
- Chapter 22 Miscellaneous Issues p. 477
- 22.4 Product Testing Issues p. 486
- 22.1 Learning from Failure p. 477
- 22.2 Design for Failure p. 478
- 22.3 Product Life Issues p. 481
- Homework Exercises p. 488
- References p. 488
- Chapter 23 Design Case Studies p. 491
- 23.1 Multidetector Brain Scanning System Development p. 491
- 23.2 Testing of Anesthetists p. 495
- 23.3 Apnea Detection System p. 498
- 23.4 Cancer Clinic Charting p. 500
- 23.5 EKG Analysis Techniques p. 501
- 23.6 EKG Analysis Module p. 504
- 23.7 Choosing the Correct Plastic Material p. 505
- 23.8 Choosing the Appropriate Material for Autoclaving p. 510
- 23.9 Choosing the Correct Cleaning Material p. 511
- Homework Exercises p. 513
- References p. 514
- Chapter 24 Future Design Issues p. 517
- 24.4 DARPA - Defence Advanced Research Projects Agency p. 525
- 24.1 The NSF Design, Manufacturing, and Industrial Innovation Division p. 518
- 24.2 The National Institute of Biomedical Imaging and Bioengineering p. 524
- 24.3 The National Institute of Science and Technology p. 524
- 24.5 Miscellaneous and Other Areas of Future Design Activity p. 525
- Conclusions p. 526
- Homework Exercises p. 527
- References p. 527
- Appendix 1 Chi Square Table p. 529
- Appendix 2 Percent Rank Tables p. 531
- Appendix 3 40 Inventive Principles, Engineering Parameters, and Conflict Matrix p. 549

- Appendix 4 Glossary p. 559
- Index p. 581
