

- Preface p. iii
- 1. Global Trends for Polypropylene Michael J. Balow p. 1
- 2. Polypropylene: Structure, Properties, Manufacturing Processes, and Applications William J. Kissel and James H. Han and Jeffrey A. Meyer p. 11
- 3. Chemical Coupling Agents for Filled and Grafted Polypropylene Composites Darilyn Roberts and Robert C. Constable p. 35
- 4. Stabilization of Flame-Retarded Polypropylene Robert E. Lee and Donald Hallenbeck and Jane Likens p. 81
- 5. Recycling of Polypropylene and Its Blends: Economic and Technology Aspects Akin A. Adewole and Michael D. Wolkowicz p. 113
- 6. Impact Behavior of Polypropylene, Its Blends and Composites Josef Jancar p. 155
- 7. Metallocene Plastomers as Polypropylene Impact Modifiers Thomas C. Yu and Donald K. Metzler p. 221
- 8. Talc in Polypropylene Richard J. Clark and William P. Steen p. 281
- 9. Glass Fiber-Reinforced Polypropylene Philip F. Chu p. 311
- 10. Functionalization and Compounding of Polypropylene Using Twin-Screw Extruders Thomas F. Bash and Harutun G. Karian p. 383
- 11. Engineered Interphases in Polypropylene Composites Josef Jancar p. 413
- 12. Mega-Coupled Polypropylene Composites of Glass Fibers Harutun G. Karian p. 465
- 13. Characterization of Long-Term Creep-Fatigue Behavior for Glass Fiber-Reinforced Polypropylene Les E. Campbell p. 517
- 14. Mica Reinforcement of Polypropylene Levy A. Canova p. 543
- 15. Use of Coupled Mica Systems to Enhance Properties of Polypropylene Composites Joseph Antonacci p. 593
- 16. Performance of Lamellar High-Purity Submicrometer and Compacted Talc Products in Polypropylene Compounds Wilhelm Schober and Giovanni Canalini p. 617
- 17. Automotive Applications for Polypropylene and Polypropylene Composites Brett Flowers p. 641
- 18. Wollastonite-Reinforced Polypropylene Roland Beck and Dick Columbo and Gary Phillips p. 651
- 19. Part Shrinkage Behavior of Polypropylene Resins and Polypropylene Composites Harutun G. Karian p. 675
- 20. Polypropylene Nanocomposite Guoqiang Qian and Tie Lan p. 707
- Index p. 729
