

- Chapter 1 Telephony Basics p. 1
- Introduction p. 1
- History of Telecommunications p. 1
- PSTN p. 2
- POTS p. 2
- Local Loop p. 4
- Types of Carriers in the United States p. 4
- Carrier Structure and Numbering Scheme p. 6
- International Structure p. 7
- Digital Communications Concepts p. 8
- Common Circuit Connections p. 11
- ISDN p. 13
- QSIG p. 14
- Carrier Systems p. 15
- The Telephony Process p. 15
- Equipment p. 18
- PBX p. 18
- Feature Sets p. 21
- Key Systems p. 21
- Centrex p. 25
- Summary p. 26
- Chapter 2 IP Telephony p. 27
- Introduction p. 27
- Fundamental Change in Communications p. 27
- What Is IP Telephony? p. 28
- IP Telephony Momentum p. 28
- Trends p. 28
- IP Telephony Architecture p. 29
- High-Level Configuration and Variance from TDM Architecture p. 29
- Fundamental IP Telephony Process p. 31
- End-User Devices p. 32
- Introduction p. 32
- Screen Phones p. 32
- IP Softphones p. 34
- Softphones for PDAs p. 34
- Feature Sets p. 35
- Communications Servers (Nobody Makes PBXs Anymore) p. 35
- Gateways and Gatekeepers p. 36
- Gateways p. 36
- Introduction p. 36
- Economics p. 38
- IP Links Already in Place p. 38
- International Communications p. 39
- Compression and CODECs p. 39
- Transmission Technologies p. 39
- Voice-over-IP (VoIP) p. 39

- Voice-over-ATM (VoATM) p. 41
- Voice-over-Frame Relay p. 41
- Cost Factors p. 42
- Quality of Service and Delay Sensitivity p. 43
- Gatekeepers p. 45
- Equipment and Configuration Considerations p. 43
- Voice-over-MPLS p. 44
- Roadblocks to IP Telephony p. 45
- Signaling Protocols p. 46
- Example Applications of IP Telephony p. 47
- Summary p. 47
- Chapter 3 CTI Concepts and Applications p. 49
- Introduction p. 49
- General Functions of CTI p. 49
- Basic Architecture p. 50
- APIs and CT Standards p. 52
- TAPI p. 53
- TSAPI p. 55
- JTAPI p. 55
- CSTA p. 58
- Linux Telephony API p. 58
- ActiveX p. 59
- Using Component Software p. 59
- Distributed versus Desktop CT p. 60
- SMS Controls p. 60
- Interoperability Standards p. 61
- MVIP p. 61
- H.100 and H.110 p. 62
- S.100, S.200, and S.300 p. 62
- H.323 p. 62
- SIP p. 63
- LDAP p. 63
- Develop versus Buy p. 63
- Application Generators and CT Architecture p. 64
- Middleware Example p. 65
- An Example Middleware Product: Concentric Solutions p. 65
- Other Examples of CTI Applications p. 74
- Travel Plan Example p. 74
- Banking Example p. 75
- How to Use the Demo p. 75
- Another Help Desk Package p. 76
- Summary p. 77
- Chapter 4 Interactive Voice Response p. 79
- Why IVR? p. 79
- IVR Feature Sets p. 80
- Representative Systems p. 82

- Hardware p. 82
- Development Software Example: Script Builder, Voice@Work, and @Work Studio p. 84
- Applications of IVR p. 85
- General Benefits p. 85
- Specific Applications p. 86
- Outbound Messaging and Audiotext p. 87
- Call Center Applications p. 88
- Fax-on-Demand p. 89
- Applications Development p. 90
- Omnivox Omniview p. 90
- Pronexus VBVoice p. 92
- Speech Recognition p. 95
- Beyond Touch-Tone p. 95
- Security p. 96
- Voice Dialer--Parlance p. 97
- Name Dialer--Avaya p. 99
- Text-to-Speech (TTS) p. 99
- VoiceXML p. 100
- Some Alternative Approaches p. 102
- IVR Performance and Tuning p. 103
- Sizing and Capacity Planning p. 103
- Sizing the IVR System p. 104
- IVR Design p. 105
- Good Practices p. 105
- Reporting and Remote Monitoring p. 105
- Summary p. 107
- Chapter 5 Unified Messaging p. 109
- Introduction p. 109
- Benefits of UM p. 109
- Basic Architecture p. 110
- Varieties of UM and Design Considerations p. 113
- VPIM p. 114
- A UM Package Checklist p. 116
- Internet Call Waiting p. 117
- Summary p. 117
- Chapter 6 Wireless Technologies p. 119
- Introduction p. 119
- Wireless Applications p. 119
- Extensions Off the PBX p. 119
- Cordless PBXs p. 121
- Wireless Handset Features p. 121
- Summary p. 125
- Chapter 7 Contact Center Technology and Management p. 129
- Introduction p. 129
- Contact Center Management and Standards for Agent Performance p. 130

- Workforce Management and Forecasting p. 138
- CRM Analysis and Data Mining p. 139
- Good IVR Design p. 140
- Agent Recording and Monitoring p. 141
- Multi-Site Design and Technical Architecture p. 146
- Integrated Features p. 147
- Web Integration and the Multimedia Call Center p. 148
- Example Internet Contact Center p. 149
- Contact Center Physical Design p. 154
- Predictive Dialing Systems p. 155
- Contact Center Trends p. 156
- Summary p. 157
- Chapter 8 Telemanagement and Outsourcing p. 159
- Introduction p. 159
- The Ideal Case p. 159
- Caveat Emptor: The Downside p. 160
- Negotiating the Agreement p. 161
- SLAs p. 163
- Telemanagement Example: QuantumShift p. 166
- Call Center Outsourcing p. 168
- Summary p. 169
- Chapter 9 Telecom Cost Management and Call Accounting p. 171
- Introduction p. 171
- How to Reduce Telecom Expenses (The "Cliff Notes" Version) p. 171
- Getting Started p. 173
- Develop a Cost Management Vision p. 173
- Get a First Cut on the Expenses p. 173
- Auditing Telecom Expenses p. 174
- Technical and Structural Changes p. 177
- On-Net/Off-Net p. 177
- IP Telephony and Voice-over-IP p. 179
- Wide Area Networking p. 180
- Negotiate Favorable Terms p. 180
- Consider Outsourcing p. 182
- Negotiating Carrier Rates and Services p. 183
- Getting Started: Collecting Data on the Current Environment p. 183
- Getting the Best Deal: A Negotiating Checklist p. 184
- A Comparison Spreadsheet p. 188
- Outsourced Services p. 188
- Monitoring Carrier Service Levels p. 190
- Example of Carrier Service Level Specifications p. 192
- Maintaining Optimum Discounts in a Decentralized Organization p. 193
- Service Levels and Organizational Requirements p. 194
- Call Accounting and Telephony Management Systems p. 194
- Call Accounting p. 195
- Call Detail Recording Systems p. 195

- Call Buffer Box p. 196
- Call Accounting System p. 197
- Implement a Directory p. 197
- Cost Allocation p. 197
- Basic Calling Accounting Reporting p. 198
- Right to Privacy and Telephony Policy p. 201
- Cabling and Wiring Management System p. 202
- Elements of the Cable Infrastructure p. 203
- Types of Cabling p. 204
- Getting the Cabling Information into the Database p. 205
- Asset Inventory and Management p. 206
- Summary p. 207
- Chapter 10 Preparing the Request for Proposal p. 209
- Introduction p. 209
- Request for Proposal versus Request for Quotation p. 209
- RFP Preparation p. 210
- Educating the Selection Committee p. 210
- Organizational Participation p. 211
- Consulting Expertise p. 211
- Format of the RFP p. 213
- The "Rehab" Option p. 213
- Evaluation of Responses p. 214
- Quantitative Factors p. 214
- Qualitative Factors p. 215
- Financial Analysis p. 216
- Summary p. 218
- Chapter 11 Telephony Security p. 221
- Introduction p. 221
- Toll Fraud p. 222
- Maintenance Port Protection p. 222
