

- **Chapter 1 History of Immunology** (p. 1)
- **Chapter 2 Molecules, Cells, and Tissues of the Immune Response** (p. 25)
- **Chapter 3 Antigens and Immunogens** (p. 105)
- **Chapter 4 Major Histocompatibility Complex** (p. 127)
- **Chapter 5 Antigen Processing and Presentation** (p. 145)
- **Chapter 6 B Lymphocyte Development and Immunoglobulin Genes** (p. 157)
- **Chapter 7 Immunoglobulin Synthesis, Properties, Structure, and Function** (p. 173)
- **Chapter 8 Antigen-Antibody Interactions** (p. 227)
- **Chapter 9 The Thymus and T Lymphocytes** (p. 251)
- **Chapter 10 Cytokines and Chemokines** (p. 285)
- **Chapter 11 The Complement System** (p. 321)
- **Chapter 12 Types I, II, III, and IV Hypersensitivity** (p. 347)
- **Chapter 13 Immunoregulation and Immunologic Tolerance** (p. 379)
- **Chapter 14 Autoimmunity** (p. 387)
- **Chapter 15 Mucosal Immunity** (p. 437)
- **Chapter 16 Immunohematology** (p. 447)
- **Chapter 17 Immunological Diseases and Immunopathology** (p. 469)
- **Chapter 18 Immunodeficiencies: Congenital and Acquired** (p. 535)
- **Chapter 19 Acquired Immune Deficiency Syndrome (AIDS)** (p. 555)
- **Chapter 20 Immunosuppression** (p. 567)
- **Chapter 21 Transplantation Immunology** (p. 579)
- **Chapter 22 Tumor Immunology** (p. 613)
- **Chapter 23 Immunity against Microorganisms** (p. 631)
- **Chapter 24 Vaccines and Immunization** (p. 685)
- **Chapter 25 Therapeutic Immunology** (p. 699)
- **Chapter 26 Comparative Immunology** (p. 707)
- **Chapter 27 Immunological Methods and Molecular Techniques** (p. 723)
- **Chapter 28 Diagnostic Immunohistochemistry** (p. 777)
- **Index** (p. 797)
