

- **Section I Biomedical Signal Analysis**
- **1 Biomedical Signals: Origin and Dynamic Characteristics; Frequency-Domain Analysis** (p. 1-1)
- **2 Digital Biomedical Signal Acquisition and Processing** (p. 2-1)
- **3 Compression of Digital Biomedical Signals** (p. 3-1)
- **4 Time-Frequency Signal Representations for Biomedical Signals** (p. 4-1)
- **5 Wavelet (Time-Scale) Analysis in Biomedical Signal Processing** (p. 5-1)
- **6 Higher-Order Spectral Analysis** (p. 6-1)
- **7 Neural Networks in Biomedical Signal Processing** (p. 7-1)
- **8 Complexity, Scaling, and Fractals in Biomedical Signals** (p. 8-1)
- **9 Future Directions: Biomedical Signal Processing and Networked Multimedia Communications** (p. 9-1)
- **Section II Imaging**
- **10 X-Ray** (p. 10-1)
- **11 Computed Tomography** (p. 11-1)
- **12 Magnetic Resonance Imaging** (p. 12-1)
- **13 Nuclear Medicine** (p. 13-1)
- **14 Ultrasound** (p. 14-1)
- **15 Magnetic Resonance Microscopy** (p. 15-1)
- **16 Positron-Emission Tomography (PET)** (p. 16-1)
- **17 Electrical Impedance Tomography** (p. 17-1)
- **18 Medical Applications of Virtual Reality Technology** (p. 18-1)
- **Section III Infrared Imaging**
- **19 Advances in Medical Infrared Imaging** (p. 19-1)
- **23 Thermal Texture Maps (TTM): Concept, Theory, and Applications** (p. 23-1)
- **20 The Historical Development of Thermometry and Thermal Imaging in Medicine** (p. 20-1)
- **21 Physiology of Thermal Signals** (p. 21-1)
- **22 Quantitative Active Dynamic Thermal IR-Imaging and Thermal Tomography in Medical Diagnostics** (p. 22-1)
- **24 IR Imagers as Fever Monitoring Devices: Physics, Physiology, and Clinical Accuracy** (p. 24-1)
- **25 Infrared Imaging of the Breast - An Overview** (p. 25-1)
- **26 Functional Infrared Imaging of the Breast: Historical Perspectives, Current Application, and Future Considerations** (p. 26-1)
- **27 Detecting Breast Cancer from Thermal Infrared Images by Asymmetry Analysis** (p. 27-1)
- **28 Advanced Thermal Image Processing** (p. 28-1)
- **29 Biometrics: Face Recognition in Thermal Infrared** (p. 29-1)
- **30 Infrared Imaging for Tissue Characterization and Function** (p. 30-1)
- **34 Infrared Imaging Applied to Dentistry** (p. 34-1)
- **31 Thermal Imaging in Diseases of the Skeletal and Neuromuscular Systems** (p. 31-1)
- **32 Functional Infrared Imaging in Clinical Applications** (p. 32-1)
- **33 Thermal Imaging in Surgery** (p. 33-1)
- **35 Use of Infrared Imaging in Veterinary Medicine** (p. 35-1)

- **36 Standard Procedures for Infrared Imaging in Medicine** (p. 36-1)
- **37 Infrared Detectors and Detector Arrays** (p. 37-1)
- **38 Infrared Camera Characterization** (p. 38-1)
- **39 Infrared Camera and Optics for Medical Applications** (p. 39-1)
- **Section IV Medical Informatics**
- **40 Hospital Information Systems: Their Function and State** (p. 40-1)
- **41 Computer-Based Patient Records** (p. 41-1)
- **42 Overview of Standards Related to the Emerging Health Care Information Infrastructure** (p. 42-1)
- **43 Introduction to Informatics and Nursing** (p. 43-1)
- **44 Non-AI Decision Making** (p. 44-1)
- **45 Medical Informatics and Biomedical Emergencies: New Training and Simulation Technologies for First Responders** (p. 45-1)
- **Section V Biomedical Sensors**
- **46 Physical Measurements** (p. 46-1)
- **47 Biopotential Electrodes** (p. 47-1)
- **48 Electrochemical Sensors** (p. 48-1)
- **49 Optical Sensors** (p. 49-1)
- **50 Bioanalytic Sensors** (p. 50-1)
- **51 Biological Sensors for Diagnostics** (p. 51-1)
- **Section VI Medical Instruments and Devices**
- **52 Biopotential Amplifiers** (p. 52-1)
- **53 Bioelectric Impedance Measurements** (p. 53-1)
- **54 Implantable Cardiac Pacemakers** (p. 54-1)
- **55 Noninvasive Arterial Blood Pressure and Mechanics** (p. 55-1)
- **56 Cardiac Output Measurement** (p. 56-1)
- **60 Respiration** (p. 60-1)
- **57 External Defibrillators** (p. 57-1)
- **58 Implantable Defibrillators** (p. 58-1)
- **59 Implantable Stimulators for Neuromuscular Control** (p. 59-1)
- **61 Mechanical Ventilation** (p. 61-1)
- **62 Essentials of Anesthesia Delivery** (p. 62-1)
- **63 Electrosurgical Devices** (p. 63-1)
- **64 Biomedical Lasers** (p. 64-1)
- **65 Instrumentation for Cell Mechanics** (p. 65-1)
- **66 Blood Glucose Monitoring** (p. 66-1)
- **67 Atomic Force Microscopy: Probing Biomolecular Interactions** (p. 67-1)
- **68 Parenteral Infusion Devices** (p. 68-1)
- **69 Clinical Laboratory: Separation and Spectral Methods** (p. 69-1)
- **70 Clinical Laboratory: Nonspectral Methods and Automation** (p. 70-1)
- **71 Noninvasive Optical Monitoring** (p. 71-1)
- **72 Medical Instruments and Devices Used in the Home** (p. 72-1)
- **73 Virtual Instrumentation: Applications in Biomedical Engineering** (p. 73-1)
- **Section VII Clinical Engineering**
- **77 Clinical Engineering Program Indicators** (p. 77-1)
- **74 Clinical Engineering: Evolution of a Discipline** (p. 74-1)

- **75 Management and Assessment of Medical Technology** (p. 75-1)
- **76 Risk Factors, Safety, and Management of Medical Equipment** (p. 76-1)
- **78 Quality of Improvement and Team Building** (p. 78-1)
- **79 A Standards Primer for Clinical Engineers** (p. 79-1)
- **80 Regulatory and Assessment Agencies** (p. 80-1)
- **81 Applications of Virtual Instruments in Health Care** (p. 81-1)
- **Section VIII Ethical Issues Associated with the Use of Medical Technology**
- **82 Beneficence, Nonmaleficence, and Medical Technology** (p. 82-1)
- **83 Ethical Issues Related to Clinical Research** (p. 83-1)
- **Index** (p. I-1)
