

- **1 Invention, Innovation, and Creativity** (p. 1)
- **2 Introduction to Medical Plastics** (p. 19)
- **3 Catheter-Forming Equipment and Operations** (p. 51)
- **4 Basics of Catheter Assembly** (p. 67)
- **5 Introduction to Needles and Cannulae** (p. 89)
- **6 Rapid Prototyping for Medical Devices** (p. 113)
- **7 Reverse Engineering in Medical Device Design** (p. 161)
- **8 Using Medical Illustration in Medical Device R&D** (p. 193)
- **9 Brief Introduction to Preclinical Research** (p. 217)
- **10 Regulatory Affairs: Medical Devices** (p. 223)
- **11 Introduction to Biocompatibility Testing** (p. 267)
- **Interview with Thomas Fogarty, M.D.** (p. 295)
- **Interview with Paul Yock, M.D.** (p. 305)
- **Interview with Dane Miller, Ph.D.** (p. 313)
- **Interview with Ingemar Lundquist** (p. 321)
- **Interview with J. Casey McGlynn** (p. 325)
- **Index** (p. 341)
