Table of contents

- **Clinical Applications of Foot and Ankle Motion Analysis in Children**
- **Equinovarus Foot: EMG Analysis and Clinical Outcome**
- **Natural History of Foot Deformity in Children with Cerebral Palsy**
- **Chemodenervation and Motion Assessment**
- **Evaluation of Long Term Clubfoot Outcomes Using Gait Study, Foot, and Ankle Motion Analysis**
- **Gait Analysis after Total Ankle Arthroplasty**
- **Gait Analysis in Posterior Tibial Tendon Insufficiency**
- **Development of an Advanced Biofidelic Lower Extremity (ABLE) Prosthesis**
- **The Challenge of the Diabetic Foot**
- **Pre-Operative and Post-Operative Gait Analysis of the Rheumatoid Forefoot**
- **A Validated, Multi-Segment, 3D Kinematic Model of the Foot and Ankle**
- **Pediatric Foot Mode**
- **Measurement of Foot Kinematics and Plantar Pressure in Children Using the Oxford Foot Model**
- **Reliability of a Clinically Practical Multi-Segment Foot Marker Set Model**
- **A Multi-Segment Food Model for Whole Body Clinical Gait Analysis**
- **Kinetic Measures of the Foot: Overcoming Current Obstacles**
- **Three-Dimensional Modeling of MRI Generated Normal and Surgically Treated Clubfeet**
- **Exploring the Frontiers of In-Vivo Multi-Body Ankle Dynamics Using Fast-PC MRI**
- **Dynamic Radiographic Measurement of 3D Skeletal Motion**
- **3D Geometric Architecture and Kinematics of Pes Planovalgue in Rheumatoid Arthritis**
- **Dynamic Poly-EMG in Gait Analysis for Assessment of Equinovarus Foot**
- **Quasi-Stiffness of the Ankle During Walking at Different Speeds Implications for Design of Prostheses and Orthoses**
- **The Role of the Foot and Ankle in the Relationship Between Lower Extremity Structure and Function**
- **A Modeling Environment for Creating Multi-Segment Feet Using Both 6 Degree of Freedom Models and Constrained Models**
- **Determination of Subject-Specific Ankle Joint Axes from Measured Foot Motion**
- **The Accuracy and Utility of Virtual Markers for Foot and Ankle Models**
- **Multi-Segment Food Biomechanics in Dynamic Hindfoot Varus**
- **Can Robotic Technology Help to Understand Foot Mechanics**
