

Table of Contents

- Introduction
- Refinery Products
- Refinery Feedstocks
- Crude Distillation
- Coking and Thermal Processes
- Catalytic Cracking
- Catalytic Hydrocracking
- Hydroprocessing and Resid Processing
- Hydrotreating
- Catalytic Reforming and Isomerization
- Alkylation and Polymerization
- Product Blending
- Supporting Processes
- Refinery Economics and Planning
- Lubricating Oil Blending Stocks
- Petrochemical Feedstocks
- Additives Production from Refinery Feedstocks
- Cost Estimation
- Economic Evaluation
- Appendices
- Index
