

- Preface p. iii
- In Tribute to Richard Wilson Furlong: Amalgamating Research with Engineering Practice and Education in Structural Concrete p. v
- SP-213--1 Precast Prestressed Concrete Pavement N. H. Burns and D. K. Merritt and B. F. McCullough p. 1
- SP-213--2 Improved Teaching of Structural Concrete Design R. N. White p. 19
- SP-213--3 Compressive Behavior of High-Strength High-Performance Concrete Under Biaxial Loading E. G. Nawy and D. H. Lim and K. L. McPherson p. 43
- SP-213--4 Design of Rectangular HSC Columns for Ductility O. Bayrak and S. A. Sheikh p. 61
- SP-213--5 Design of High-Strength Concrete Columns for Strength and Ductility M. Saatcioglu p. 83
- SP-213--6 Precast Concrete for High Seismic Regions G. S. Cheok and H. S. Lew p. 103
- SP-213--7 Shear Strength of Lightweight Concrete Beams with Stirrups Near Code Minimum J. A. Ramirez p. 119
- SP-213--8 Design Rules for Composite Construction in Retrospect I. M. Viest p. 135
- SP-213--9 Reliant Stadium--A New Standard for Football L. G. Griffis and A. Wahidi and M. C. Waggoner p. 151
- SP-213--10 Composite RCS Space Frame Systems: Previous and Current Studies J. M. Bracci and S. Powanusorn and J. P. Steele p. 167
- SP-213--11 Finite Element Analysis of Composite Steel-Concrete Columns S. A. Mirza and E. A. Lacroix p. 185
- SP-213--12 Flexural Ductility of CFRP Strengthened Concrete Beams--Experimental Investigation R. S. Aboutaha and P. Wattanadechachan and S. H. Kim p. 207
- SP-213--13 My View of Richard W. Furlong--Colleague N. H. Burns p. 221
- Professional Contributions of Richard W. Furlong p. 235
