

## Table of Contents

- Acknowledgments p. vii
- About the Authors p. ix
- Preface p. xi
- Importance of Polymers p. xi
- Formulation p. xi
- Need for Analysis p. xi
- Additives as Possible Hazards p. xii
- Analytical Protocols, Historical p. xii
- Purpose p. xii
- How to Use this Handbook p. xv
- Chapter 1 Overview of Polymers, Additives, and Processing p. 1
- Introduction p. 1
- Overview of Polymeric Compounds p. 2
- Compounding Objectives p. 2
- Thermoplastic Compounding p. 3
- Crosslinked Elastomer Compounding p. 6
- Thermoplastic Elastomer Compounding p. 8
- Compounding Supplement p. 9
- Introduction p. 9
- Methods of Compounding: Thermoplastic Polymers p. 9
- Methods of Compounding: Crosslinked Elastomers p. 12
- Chapter 2 Extraction and Analysis p. 19
- Introduction p. 19
- Extraction Methods p. 19
- Analytical Methods p. 22
- System Maintenance p. 24
- References p. 24
- Chapter 3 Accelerators p. 27
- Chapter 4 Antidegradants p. 41
- Chapter 5 Antioxidants p. 61
- Chapter 6 Coupling Agents p. 159
- Chapter 7 Flame Retardants p. 171
- Chapter 8 Plasticizers p. 185
- Chapter 9 Other Compounds of Interest p. 303
- Chapter 10 Real World Problems Related to Additives p. 315
- Case Studies: Polymer Additives in Pharmaceutical Packaging p. 315
- Case Study #1 Pre-Filled Syringe Vials p. 315
- Case Study #2 Nasal Pump Delivery System p. 317
- Case Study #3 Dry Powder Inhalation Device p. 318
- Case Studies: Contamination from Packaging p. 322
- Case Study #1 Contaminants in Plastic Food Packaging p. 324
- Case Study #2 Peeling Labels p. 326
- Case Studies: Polymers for Electrical Equipment Applications p. 327
- Case Study #1 Electrical Insulators p. 328

- Case Study #2 Review of Field-Aged Elastomeric Materials p. 331
- Case Study #3 Performance of Polymeric Seals p. 333
- Appendix A Chromatograms p. 335
- Appendix B Definitions and Abbreviations p. 463
- Subject Index p. 465
- Five Peak Index of Mass Spectra p. 471
- Molecular Weight Index p. 477
- CAS Number Index p. 479
- RTECS Number Index p. 481
