

- **Contributors** (p. xi)
- **Preface** (p. xvii)
- **I Hazard Identification**
- **1 Microbial Flora of Humans and Microbial Virulence Factors** (p. 3)
- **2 Indigenous and Pathogenic Agents of Research Animals** (p. 19)
- **3 Laboratory, Growth Chamber, and Greenhouse Microbial Safety: Plant Pathogens and Plant-Associated Microorganisms of Significance to Human Health** (p. 35)
- **4 Epidemiology of Laboratory-Associated Infections** (p. 53)
- **II Hazard Assessment**
- **5 Risk Assessment of Biological Hazards** (p. 81)
- **6 Bacterial Pathogens** (p. 93)
- **7 Protozoa and Helminths** (p. 115)
- **8 Mycotic Agents of Human Disease** (p. 163)
- **9 Viral Agents of Human Disease: Biosafety Concerns** (p. 179)
- **10 Biosafety for Microorganisms Transmitted Primarily by the Airborne Route** (p. 209)
- **11 Cell Lines: Applications and Biosafety** (p. 221)
- **12 Allergens of Animal and Biological Systems** (p. 241)
- **13 Biological Toxins: Safety and Science** (p. 253)
- **III Hazard Control**
- **14 Design of Biomedical Laboratory Facilities** (p. 273)
- **15 Primary Barriers and Equipment-Associated Hazards** (p. 295)
- **16 Primary Barriers: Biological Safety Cabinets, Fume Hoods, and Glove Boxes** (p. 303)
- **17 Personal Respiratory Protection** (p. 325)
- **18 Standard (Universal) Precautions for Handling Human Specimens** (p. 341)
- **19 Prudent Biosafety Practices** (p. 361)
- **20 Decontamination and Disinfection** (p. 373)
- **21 Packing and Shipping Biological Materials** (p. 383)
- **IV Administrative Controls**
- **22 Biological Safety Program Management** (p. 405)
- **23 Biosafety Compliance: A Global Perspective** (p. 417)
- **24 Occupational Medicine in a Biomedical Research Setting** (p. 437)
- **25 Measuring Biosafety Program Effectiveness** (p. 445)
- **V Special Considerations for Biosafety**
- **26 Biosafety of Prion Diseases** (p. 461)
- **27 Safety Considerations in the BSL-4 Maximum-Containment Laboratory** (p. 487)
- **28 Biosafety and Viral Gene Transfer Vectors** (p. 509)
- **29 Biosafety in the Teaching Laboratory** (p. 531)
- **30 Biosafety in the Pharmaceutical Industry** (p. 551)
- **31 Large-Scale Production of Microorganisms** (p. 561)
- **32 Special Considerations for Agriculture Pathogen Biosafety** (p. 579)
- **33 Biosafety and Biosecurity: Regulatory Impact** (p. 587)
- **Index** (p. 597)
