

- Series Preface p. xi
- Preface p. xiii
- Acknowledgements p. xvii
- 1 Introduction
- 1.1 Archimedes' Screw p. 1
- Chapter 1 Self-Test p. 7
- 2 Basic Water Hydraulics
- 2.1 Introduction p. 9
- 2.2 Definitions and Key Terms p. 10
- 2.3 Basic Principles of Water Hydraulics p. 18
- 2.4 Basic Pumping Calculations p. 27
- 2.5 Pump-Characteristic Curves p. 37
- 2.6 Pumps in Series and Parallel p. 41
- 2.7 Considerations for Pumping Wastewater p. 41
- 2.8 The Types of Pumps Used in Water/Wastewater Treatment p. 42
- References p. 47
- Chapter 2 Self-Test p. 48
- 3 Introduction to Centrifugal Pumps
- 3.1 Introduction p. 51
- 3.2 Description p. 55
- 3.3 Theory p. 57
- 3.4 Types of Pumps p. 58
- 3.5 Characteristics and Performance Curves p. 62
- 3.6 Advantages/Disadvantages p. 69
- 3.7 Water/Wastewater Applications p. 72
- References p. 75
- Chapter 3 Self-Test p. 76
- 4 Centrifugal Pump Components
- 4.1 Introduction p. 77
- 4.2 Casing p. 77
- 4.3 Impeller p. 82
- 4.4 Wear Rings p. 86
- 4.5 Shafts, Sleeves, and Couplings p. 87
- 4.6 Stuffing Box and Seals p. 96
- 4.7 Bearings p. 101
- References p. 107
- Chapter 4 Self-Test p. 109
- 5 Centrifugal Pump: Operational Procedures
- 5.1 Introduction p. 111
- 5.2 Installation p. 113
- 5.3 Startup p. 115
- 5.4 Normal Operation p. 117
- 5.5 Shutdown p. 117
- 5.6 Priming p. 118
- 5.7 Backflushing p. 120
- References p. 122

- Chapter 5 Self-Test p. 123
- 6 Centrifugal Pump: Maintenance Procedures
- 6.1 Introduction p. 125
- 6.2 Pump and Motor Lubrication p. 126
- 6.3 Packing and Seal Replacement p. 127
- 6.4 Pump and Motor Bearing Inspection p. 130
- 6.5 Shaft and Coupling Alignment p. 131
- 6.6 Removal of Obstructions p. 133
- Reference p. 133
- Chapter 6 Self-Test p. 134
- 7 Centrifugal Pump: Preventive Maintenance
- 7.1 Introduction p. 135
- 7.2 Daily Maintenance p. 137
- 7.3 Weekly Maintenance p. 138
- 7.4 Monthly Maintenance p. 138
- 7.5 Quarterly Maintenance p. 139
- 7.6 Semi-Annual Maintenance p. 139
- Reference p. 39
- Chapter 7 Self-Test p. 140
- 8 Centrifugal Pump: Lubrication
- 8.1 Introduction p. 141
- 8.2 Purpose of Lubrication p. 142
- 8.3 Lubrication Requirements p. 144
- 8.4 Lubrication Procedures p. 145
- Reference p. 150
- Chapter 8 Self-Test p. 151
- 9 Centrifugal Pump: Troubleshooting
- 9.1 Introduction p. 153
- 9.2 The Troubleshooter p. 154
- 9.3 Troubleshooting: What Is It? p. 155
- 9.4 Goals of Troubleshooting p. 156
- 9.5 The Troubleshooting Process p. 156
- 9.6 Troubleshooting the Centrifugal Pump p. 160
- References p. 175
- Chapter 9 Self-Test p. 176
- 10 Centrifugal Pump: Modifications
- 10.1 Introduction p. 177
- 10.2 Submersible Pumps p. 178
- 10.3 Recessed Impeller or Vortex Pumps p. 180
- 10.4 Turbine Pumps p. 182
- Chapter 10 Self-Test p. 184
- 11 Positive-Displacement Pumps
- 11.1 Introduction p. 185
- 11.2 Reciprocating Pumps p. 187
- 11.3 Rotary Pumps p. 192
- 11.4 Special-Purpose Pumps p. 194

- References p. 194
- Chapter 11 Self-Test p. 196
- 12 Final Review Examination p. 197
- Appendix A Answers to Chapter Self-Tests p. 201
- Appendix B Answers to Chapter 12--Final Review Examination p. 209
- Index p. 213
