- Contributing Authors p. iv
- Goals p. xxxiii
- Who Should Read This Book? p. xxxiii
- How This Book Is Organized p. xxxiv
- Icons Used in This Book p. xxxv
- Command Syntax Conventions p. xxxv
- Part I Modeling the Internetwork p. 3
- Chapter 1 The Key Components for Modeling an Internetwork p. 5
- Identifying the Key Components Needed for Modeling Internetworks p. 6
- The Access Server p. 7
- Modeling Local-Area Networks (LANs) p. 10
- Simulating Wide-Area Network Connections p. 14
- Routers, Cisco IOS Software, and Memory Requirements for Labs p. 22
- Test Hosts and Data Simulation p. 24
- Building the Framework for Internetwork Modeling--Configuring Key Components p. 25
- Practical Study for Chapter 1: Setting Up p. 82
- Lab 1 Password Recovery p. 83
- Lab 1 Password Recovery--Part II p. 84
- Lab 2 Password Recovery on a Catalyst 5500 p. 89
- Lab 2 Password Recovery on a Catalyst 5500--Part II p. 90
- Lab 3 Upgrading the IOS and Restoring a Configuration from TFTP Server p. 91
- Lab 3 Upgrading the IOS and Restoring a Configuration from a TFTP Server--Part II p. 93
- Lab 4 Configuring an Access Server p. 98
- Lab 4 Configuring an Access Server--Part II p. 99
- Lab 5 Configuring a Frame Relay Switch p. 102
- Lab 5 Configuring a Frame Relay Switch--Part II p. 104
- Lab 6 Configuring Remote Access to the Lab p. 108
- Lab 6 Configuring Remote Access to the Lab--Part II p. 110
- Part II Modeling LANs p. 115
- Chapter 2 LAN Protocols: Configuring Catalyst Ethernet and Token Ring Switches p. 117
- Ethernet LANs p. 118
- Ethernet: A Brief History of an Evolutionary Protocol p. 118
- Ethernet Technical Overview p. 123
- 802.1d Spanning-Tree Protocol (STP) p. 128
- Ethernet Switching p. 135
- IEEE 802.5/Token Ring LANs p. 200
- Token Ring: 30 Years Old and Still in Service p. 200
- Token Ring Technical Overview p. 200
- Token Ring Switching p. 203
- Token Ring Bridge Relay Function (TrBRF) and the Token Ring Concentrator Function (TrCRF) p. 204
- Configuring Token Ring Switching on the Catalyst 3920 p. 208
- More Practice: Ethernet/Token Ring Labs p. 221

- Lab 7 Ethernet Switching, VLAN Trunking, and Spanning Tree Root Placement p. 222
- Lab 7 Ethernet Switching, VLAN Trunking, and Spanning Tree Root Placement--Part II p. 225
- Lab 8 Configuring Token Ring Switching Using the Catalyst 3920 p. 240
- Lab 8 Configuring Token Ring Switching Using the Catalyst 3920--Part II p. 243
- Part III Connecting LANs with Wide-Area Networks (WANs) p. 251
- Chapter 3 WAN Protocols and Technologies: High-Level Data Link Control (HDLC) p. 253
- The Compatibility and Simplicity of HDLC p. 254
- Lab 9 Configuring HDLC p. 266
- Lab 9 Configuring HDLC--Part II p. 268
- Chapter 4 WAN Protocols and Technologies: Point-to-Point Protocol (PPP) p. 273
- The Many Uses of PPP p. 276
- Lab 10 Configuring PPP, PAP, and Compression over Asynchronous Dialup p. 312
- Lab 10 Configuring PPP, PAP, and Compression over Asynchronous Dialup--Part II p. 314
- Lab 11 Configuring PPP, CHAP, and LQM over Synchronous Links p. 323
- Lab 11 Configuring PPP, CHAP, and LQM over Synchronous Links--Part II p. 325
- Lab 12 Configuring PPP Analog Backup for Synchronous Links p. 331
- Lab 12 Configuring PPP Analog Backup for Synchronous Links--Part II p. 333
- Chapter 5 WAN Protocols and Technologies: Frame Relay p. 343
- Frame Relay Terminology p. 343
- Frame Relay Technical Overview p. 346
- Configuring Frame Relay p. 349
- The "Big show" and "Big D" for Frame Relay p. 357
- Additional Commands for Configuring Frame Relay p. 363
- Configuring Frame Relay Traffic Shaping p. 363
- Lab 13 Configuring Frame Relay Networks and Controlling Frame Relay ARP p. 370
- Lab 13 Configuring Frame Relay Networks and Controlling Frame Relay ARP--Part II p. 373
- Lab 14 Configuring Frame Relay Networks, Traffic Shaping, OSPF, and DLSw/LLC2 p. 382
- Lab 14 Configuring Frame Relay Networks, Traffic Shaping, OSPF, and DLSw/LLC2--Part II p. 385
- Chapter 6 WAN Protocols and Technologies: Voice over X p. 393
- Introduction to Analog Telephony p. 393
- Digital Voice Technology p. 411
- Cisco Voice Products p. 418
- Lab 15 Configuring Voice over Frame, Voice over IP, and Voice over ATM p. 421
- Lab 15a Configuring Voice over Frame Relay p. 423
- Lab 15a Configuring Voice over Frame Relay--Part II p. 426
- Lab 15b Configuring Voice over IP p. 432
- Lab 15b Configuring Voice over IP--Part II p. 434
- Lab 15c Configuring Voice over ATM p. 440
- Lab 15c Configuring Voice over ATM--Part II p. 441
- Lab 15d Optional Private Line Automatic Ring Down (PLAR) Connection p. 447

- Chapter 7 WAN Protocols and Technologies: Integrated Services Digital Network (ISDN) p. 451
- ISDN Development, Components, and Mechanics p. 451
- ISDN Configuration Basics p. 455
- Configuring Dial-on-Demand Routing (DDR) p. 457
- The "Big show" and "Big D" for Troubleshooting ISDN p. 525
- Useful Tips and Tricks p. 534
- Lab 16 Configuring PPP Authentication, Callback, and Multilink over ISDN p. 536
- Lab 17 Configuring OSPF Demand Circuits over ISDN p. 544
- Summary p. 553
- Chapter 8 WAN Protocols and Technologies: Asynchronous Transfer Mode (ATM) p. 555
- Special Components Needed for ATM Lab Studies p. 557
- Configuring RFC 2684 p. 562
- Configuring RFC 2225 (Classical IP) p. 574
- Lab 18 Configuring PVCs on Cisco 7XXX Routers, RFC 2684 p. 582
- Lab 18 Configuring PVCs on Cisco 7XXX Routers, RFC 2684--Part II p. 584
- Lab 19 Configuring Classical IP Using SVCs on Cisco 7XXX Routers, RFC 2225 p. 590
- Lab 19 Configuring Classical IP Using SVCs on Cisco 7XXX Routers, RFC 2225--Part II p. 592
- Summary p. 596
- Part IV Routing Protocols p. 599
- What Are Routing Protocols? p. 599
- Distance Vector and Link-State Protocols p. 604
- Chapter 9 Distance Vector Protocols: Routing Information Protocol Versions 1 and 2 (RIP-1 and RIP-2) p. 611
- Technical Overview of RIP p. 611
- Configuring RIP-1 and RIP-2 p. 615
- Tuning, Redistribution, and Control of RIP Updates p. 619
- RIP Default Routing p. 625
- Lab 20 Integrating RIP Networks: Redistribution, Route Filtering, and Control p. 627
- Lab 20 Integrating RIP Networks: Redistribution, Route Filtering, and Control--Part II p. 630
- Chapter 10 Distance Vector Protocols: Interior Gateway Routing Protocol (IGRP) p. 639
- Technical Overview of IGRP p. 640
- Configuring IGRP p. 643
- Tuning, Redistribution, and Controlling IGRP Updates p. 647
- Lab 21 Default Routing, Filtering, and Unequal-Cost Load Sharing in IGRP Networks p. 658
- Lab 21 Default Routing, Filtering, and Unequal-Cost Load Sharing in IGRP Networks--Part II p. 661
- Chapter 11 Hybrid: Enhanced Interior Gateway Routing Protocol (EIGRP) p. 669
- Technical Overview of EIGRP p. 670
- Split Horizon p. 681

- Configuring EIGRP p. 683
- The "Big show" and "Big D" for EIGRP p. 685
- Tuning EIGRP Updates p. 690
- EIGRP Redistribution and Route Control p. 690
- EIGRP Summarization p. 700
- Default Routing with EIGRP p. 708
- EIGRP Stub Routing p. 710
- EIGRP Equal- and Unequal-Cost Load Balancing p. 713
- Lab 22 EIGRP Route Redistribution, Summarization, and Stub Routing--Part I p. 715
- Lab 22 EIGRP Route Redistribution, Summarization, and Stub Routing--Part II p. 718
- Lab 23 Default Routing, Route manipulation, and Filtering in EIGRP Networks p. 729
- Lab 23 Default Routing, Route Manipulation, and Filtering in EIGRP Networks--Part II p. 732
- Chapter 12 Link-State Protocols: Open Shortest Path First (OSPF) p. 741
- Technical Overview of OSPF p. 742
- Configuring OSPF p. 759
- The "Big show" and "Big D" for OSPF p. 775
- Configuring OSPF Stub Areas p. 782
- Tuning OSPF p. 783
- OSPF Flooding Reduction p. 783
- OSPF Redistribution and Route Control p. 784
- OSPF Summarization p. 790
- OSPF Default Routing p. 794
- OSPF Authentication p. 797
- OSPF Demand Circuits and Backup p. 800
- OSPF Virtual Links p. 801
- Lab 24 OSPF Multiple Area Routing, Authentication, Path Manipulation, Default Routing p. 804
- Lab 24 OSPF Multiple Area Routing, Authentication, Path Manipulation, Default Routing--Part II p. 808
- Lab 25 OSPF Multiple Area Routing, Route Redistribution and Summarization p. 821
- Lab 25 OSPF Multiple Area Routing, Route Redistribution and Summarization--Part II p. 825
- Part V Transporting Non-Routable Protocols p. 843
- Chapter 13 Configuring Bridging and Data Link Switching Plus p. 845
- Transparent Bridging p. 846
- Integrated Routing and Bridging p. 858
- Source Route Bridging (SRB) p. 867
- Data Link Switching Plus (DLSw+) p. 894
- Filtering Traffic in Bridged Environments p. 937
- Lab 26 Transparent Bridging, Remote Source-Route Bridging, LSAP Filtering p. 941
- Lab 26 Transparent Bridging, Remote Source-Route Bridging, LSAP Filtering--Part II p. 945
- Lab 27 DLSw+ TCP, LLC2, Promiscuous, Dynamic, and Backup Peer Configuration p. 959

- Lab 27 DLSw+ TCP, LLC2, Promiscuous, Dynamic, and Backup Peer Configuration--Part II p. 964
- Lab 28 DLSw+ Reachability, Border Peers, Demand Peers, and Resilient Peers p. 975
- Lab 28 DLSw+ Reachability, Border Peers, Demand Peers, and Resilient Peers--Part II p. 978
- Part VI Controlling Networks and Network Access p. 987
- Chapter 14 Understanding IP Access Lists p. 989
- Understanding How Access Lists Operate p. 989
- Access Lists, Wildcard Masks, and Binary Math p. 991
- Standard IP Access Lists p. 994
- Extended IP Access Lists p. 998
- Displaying Access Lists p. 1004
- Dynamic Access Lists p. 1005
- Named Access Lists p. 1009
- Lab 29 Configuring Access Lists, Named Access Lists, and EIGRP Route Filters p. 1011
- Lab 29 Configuring Access Lists, Named Access Lists, and EIGRP Route Filters--Part II p. 1013
- Lab 30 Configuring Dynamic Access Lists and Traffic Filters by Using Named Access Lists p. 1021
- Lab 30 Configuring Dynamic Access Lists and Traffic Filters by Using Named Access Lists--Part II p. 1024
- Part VII Enhanced Network Protocols p. 1029
- Chapter 15 Configuring Network Address Translation (NAT) p. 1031
- NAT Technical Overview p. 1031
- NAT and RFC 1918 p. 1035
- Configuring NAT p. 1036
- The "Big show" and "Big D" for NAT p. 1045
- Clearing and Changing NAT Translations p. 1048
- NAT Limitations and Uses p. 1048
- NAT and Nonstandard FTP Port Numbers p. 1050
- Lab 31 Configuring Dynamic NAT and Using Non-Standard FTP Port Numbers p. 1051
- Lab 31 Configuring Dynamic NAT and Using Non-Standard FTP Port Numbers--Part II p. 1053
- Lab 32 Configuring Static NAT and DLSw p. 1060
- Lab 32 Configuring Static NAT and DSLw--Part II p. 1062
- Chapter 16 Using Hot Standby Routing Protocol (HSRP) p. 1069
- HSRP Overview and Configuration p. 1070
- The "Big show" and "Big D" for HSRP p. 1076
- Lab 33 Configuring HSRP, Tracking, and Asymetrical Routing p. 1078
- Lab 33 Configuring HSRP, Tracking, and Asymetrical Routing--Part II p. 1081
- Chapter 17 Configuring Network Time Protocol (NTP) and Simple Network Time Protocol (SNTP) p. 1091
- NTP Overview p. 1091
- Configuring NTP p. 1093
- Configuring the Simple Network Time Protocol (SNTP) p. 1104

- The "Big show" and "Big D" for NTP and SNTP p. 1105
- Lab 34 Configuring NTP Servers, Clients, and Authentication p. 1108
- Lab 34 Configuring NTP Servers, Clients, and Authentication--Part II p. 1110
- Lab 35 Configuring NTP Servers, Clients, and Peer Associations p. 1115
- Lab 35 Configuring NTP Servers, Clients, and Peer Associations--Part II p. 1117
- Part VII CCIE Preparation and Self-Assessment p. 1123
- Chapter 18 The CCIE Practical Exam: Preparation and CCIE Practice Labs p. 1125
- The New 1 Day CCIE Exam p. 1126
- How Do I Become a CCIE? p. 1126
- CCIE: Recommended Study Resources and Topics Outline p. 1127
- CCIE Practice Lab: "Skynet" p. 1135
- Equipment List p. 1135
- Prestaging: Frame Switch Configuration p. 1135
- Prestaging: Backbone Router Configuration p. 1137
- Timed Portion p. 1138
- Part II p. 1142
- CCIE Practice Lab: "Darth Reid" p. 1143
- Equipment List p. 1143
- Prestaging: Frame Switch Configuration p. 1143
- Prestaging: Backbone Router Configuration p. 1144
- Timed Portion p. 1147
- Part II p. 1152
- CCIE Practice Lab: "The Lab, the Bad, the Ugly" p. 1153
- Equipment List p. 1153
- Prestaging: Frame Switch Configuration p. 1153
- Timed Portion p. 1156
- Part II p. 1160
- CCIE Practice Lab: "The Enchilada" p. 1161
- Equipment List p. 1161
- Prestaging: Frame Switch Configuration p. 1161
- Timed Portion p. 1164
- Part II p. 1168
- CCIE Practice Lab: "The Unnamed Lab" p. 1169
- Equipment List p. 1169
- Prestaging: Frame Switch Configuration p. 1169
- Prestaging: Backbone Router Configuration p. 1171
- Timed Portion p. 1173
- Part II p. 1177
- Part IX Appendixes p. 1179
- Appendix A ISDN Switch Types, Codes, and Values p. 1181
- Switch Types p. 1181
- Cause Code Fields p. 1182
- Cause Values p. 1183
- Bearer Capability Values p. 1193
- Progress Field Values p. 1194
- Appendix B The 'Abridged' OSI Reference Model p. 1197

- Appendix C RFC List p. 1199
- Appendix D Common Cable Types and Pinouts p. 1209
- Console and Auxiliary Port Signals and Pinouts p. 1209
- Serial Cable Assemblies and Pinouts p. 1211
- Ethernet Cable Assembly and Pinout p. 1222
- Token Ring Pinout p. 1223
- Asynchronous Serial Ports p. 1224
- RJ-45 Adapter Pinouts p. 1227
- Appendix E Bibliography p. 1231
- Index p. 1243
