

- **Contributors** (p. vii)
- **Preface** (p. ix)
- **Part I External and Internal Regulation of Flowering** (p. 1)
- **1 Photoperiodism and Flowering** (p. 3)
- **2 Vernalization** (p. 26)
- **3 Signal Transduction Regulating Floral Development** (p. 50)
- **Part II Floral Development** (p. 79)
- **4 Floral Meristem Identity Genes** (p. 81)
- **5 Molecular Biology of Floral Organogenesis** (p. 100)
- **6 Molecular Developmental Genetics and the Evolution of Flowers** (p. 124)
- **7 Flower Senescence** (p. 150)
- **8 Developmental Control and Biotechnology of Floral Pigmentation** (p. 178)
- **9 Biotechnology of Floral Development** (p. 237)
- **Part III Fertilization and Gametophyte Development** (p. 267)
- **10 Control of Fertilization by Self-incompatibility Mechanisms** (p. 269)
- **11 Stamen Development: Primordium to Pollen** (p. 298)
- **12 Genes Regulating Ovule Development** (p. 332)
- **13 The Molecular Biology of Apomixis** (p. 354)
- **Index** (p. 391)
