

- **Introduction.**
- **Chapter 1 Measurement Instrumentation**
- **Chapter 2 General principles of Sensors**
- **Chapter 3 Physical Principles of Optical, Thermal and Mechanical Sensors**
- **Chapter 4 Analog Processing Associated with Sensors**
- **Chapter 5 Analog Filters**
- **Chapter 6 Real-time Data Acquisition and Processing Systems**
- **Chapter 7 The Contribution of Microtechnologies**
- **Chapter 8 Instruments and Measurement Chains**
- **Chapter 9 Elaboration of Models for the Interaction Between the Sensor and its Environment**
- **Chapter 10 Representation and Analysis of Signals**
- **Chapter 11 Multi-sensor Systems: Diagnostics and Fusion**
- **Chapter 12 Intelligent Sensors**
- **List of Authors.**
- **Index.**
