

Table of Contents

- List of Contributors
- Preface
- How to use the Corrosion Handbook
- Sodium Hydroxide (Author: P. Drodten / Editor: R. Bender)
- A Metallic Materials
- Aluminum and Aluminum Alloys, Copper and Copper Alloys, Iron, Iron-based Alloys and Steels, Nickel and Nickel Alloys, Titanium and Titanium Alloys, Zinc Cadmium and their Alloys
- B Non-metallic Inorganic Materials
- Carbon and Graphite, Binders for Building Materials, Glass, Quartz Ware and Quartz Glass, Enamel, Oxide Ceramic Materials, Metal Ceramic Materials
- C Organic Materials/Plastics
- Thermoplastics, Thermosetting Plastics, Elastomers, Duroplasts
- D Materials with Special Properties
- Coatings and Linings, Seals and Packings, Composite Materials
- E: Materials Recommendations
- Bibliography
- Mixed Acids (Author: M.B. Rockel / Editor: R. Bender)
- A Metallic Materials
- C Organic Materials/Plastics
- Aluminum and Aluminum Alloys, Copper and Copper Alloys, Iron, Iron-based Alloys and Steels, Nickel and Nickel Alloys, Titanium and Titanium Alloys, Zinc Cadmium and their Alloys
- B Non-metallic Inorganic Materials
- Carbon and Graphite, Binders for Building Materials, Glass, Quartz Ware and Quartz Glass, Enamel, Oxide Ceramic Materials, Metal Ceramic Materials
- Thermoplastics, Thermosetting Plastics, Elastomers, Duroplasts
- D: Materials with Special Properties
- Coatings and Linings, Seals and Packings, Composite Materials
- E: Materials Recommendations
- Bibliography
- Key to Materials Compositions
- Index of Materials
- Subject Index
