

Table of contents provided by Syndetics

- **1 Introduction to Fuzzy Sets and Fuzzy Logic** (p. 1)
- **1.1 Sets and Structures** (p. 1)
- **1.2 Structures of Truth Degrees** (p. 7)
- **1.3 Fuzzy Sets** (p. 32)
- **1.4 Pavelka-Style Fuzzy Logic** (p. 50)
- **1.5 Bibliographical Remarks** (p. 57)
- **2 Algebras with Fuzzy Equalities** (p. 59)
- **2.1 Definition and Examples** (p. 60)
- **2.2 Subalgebras, Congruences, and Morphisms** (p. 66)
- **2.3 Direct and Subdirect Products** (p. 83)
- **2.4 Terms, Term L-Algebras** (p. 91)
- **2.5 Direct Unions** (p. 98)
- **2.6 Direct Limits** (p. 103)
- **2.7 Reduced Products** (p. 120)
- **2.8 Class Operators** (p. 127)
- **2.9 Related Approaches** (p. 128)
- **2.10 Bibliographical Remarks** (p. 136)
- **3 Fuzzy Equational Logic** (p. 139)
- **3.1 Syntax and Semantics** (p. 140)
- **3.2 Completeness of Fuzzy Equational Logic** (p. 146)
- **3.3 Varieties, Free L-Algebras** (p. 154)
- **3.4 Equational Classes of L-Algebras** (p. 158)
- **3.5 Properties of Varieties** (p. 163)
- **3.6 Bibliographical Remarks** (p. 170)
- **4 Fuzzy Horn Logic** (p. 171)
- **4.1 Syntax and Semantics** (p. 171)
- **4.2 Semantic Entailment** (p. 188)
- **4.3 Completeness of Fuzzy Horn Logic** (p. 204)
- **4.4 Fuzzy Equational Logic Revisited** (p. 221)
- **4.5 Implicationally Defined Classes of L-Algebras** (p. 222)
- **4.6 Sur-Reflections and Sur-Reflective Classes** (p. 235)
- **4.7 Semivarieties** (p. 245)
- **4.8 Quasivarieties** (p. 249)
- **4.9 Bibliographical Remarks** (p. 266)
- **References** (p. 267)
- **Table of Notation** (p. 273)
- **Index** (p. 279)
