

Table of contents

- **Geological Occurrence of Groundwater.**
- **One-Dimensional Flow of Groundwater.**
- **Two- and Three-Dimensional Flow of Groundwater.**
- **Geophysical and Tracer Characterization Methods.**
- **Hydraulics of Wells.**
- **Well Tests.**
- **Groundwater Contaminants.**
- **Contaminant Transport in the Saturated Zone.**
- **Contaminant Transport in the Unsaturated Zone.**
- **Site Remediation of Groundwater.**
- **Biodegradation.**
- **Geosynthetics and Subsurface Screens.**
- **Kriging and Inversing.**
- **The Role of Geographical Information Systems in Groundwater Engineering.**
- **Experimental Techniques.**
