

CONTENTS

CHAPTER 1—Drawing Standards and Planning Principles		1-80
(i) Drawing Office Practice	...	1
(ii) Guidelines for Building Drawing	...	5
(iii) Definitions of Terms Used in Building Constructions	...	7
(iv) General Conventions for Showing Different Materials in Sections	...	7
(v) Thumb Rules for Effective Planning	...	22
(vi) Locations of Rooms and Their Common Sizes	...	23
(vii) Building Bye-laws	...	25
(viii) Building Permit	...	29
(ix) Approximate Cost of Different Components of a Building	...	32
(x) Specifications of Buildings	...	34
(xi) Materials used in Cement Concrete	...	38
(xii) Mix Design of Concrete (Volumetric)	...	45
(xiii) Specifications for an Office Building	...	48
(xiv) Specifications for Residential Building	...	55
(xv) Guidelines to the Students appearing for Examination in Building Drawing	...	70
University Questions	...	79
<hr/>		
CHAPTER 2—Stairs and Double-Storeyed Buildings		81—94
(i) Definitions of Terms Used in Stairs	...	81
(ii) Guidelines for Staircases Planning	...	81
(iii) Different Type of Staircase Drawings	...	82
(iv) Specifications for Staircase and Double-Storeyed Building Drawings	...	85
(v) Plans of a Furnished Bungalow with Bath and W.C. Details	...	88, 94
University Questions	...	92
<hr/>		
CHAPTER 3—Door and Windows		95-102
(i) Guidelines for Selecting Doors and Windows	...	95
(ii) Terms Used in Door and Window Constructions	...	95
(iii) Problems on Doors and Windows	...	96
(iv) Different types of Door and Window Drawings	...	99
(v) University Questions	...	97
<hr/>		
CHAPTER 4—Reinforcement Details		103-110
(i) Reinforcement Details	...	103
(ii) Different Drawings	...	105
(iii) University Questions	...	110
<hr/>		
CHAPTER 5—Inclined Roof Buildings		111-132
(i) Terms Used in Inclined Roof Buildings	...	111
(ii) Different Drawings on Inclined Buildings	...	112, 115, 120, 123
(iii) Specifications for Truss-Drawings	...	114
(iv) Problems on Trusses	...	118
(v) Problems on Inclined Roof Building	...	119
(vi) University Questions on Truss and Inclined Roof Buildings	...	132
<hr/>		
CHAPTER 6—Culverts		133-152
(i) Different Types of Culverts	...	133
(ii) Terms Used in Culvert Construction and Guidelines for Selection of Different Components	...	134
(iii) Specifications for Different Types of Culvert Drawings	...	136
(iv) Different Drawings on Culverts	...	137
(v) University Questions on Culverts	...	125
<hr/>		
CHAPTER 7—Plans of Some Residential Building		153-156
