

- Foreword p. v
- Preface p. vii
- The Contributors p. xi
- 1. In Situ Characterization of Rocks Carlos S. Oteo p. 1
- 2. Measurement and Characterization of Rock Mass Jointing Arild Palmstrom p. 49
- 3. In Situ Characterization of Rocks in the Himalayan Region V.M. Sharma p. 99
- 4. In Situ Investigation on Mechanical Characteristics of Soft Rocks Toshihisa Adachi and Nobuyuki Yoshida p. 131
- 5. In Situ Shear Tests for Dam Foundations--Indian Scenario Y. Babu Rao and K.R. Saxena p. 187
- 6. Crustal Stress Derived from Fluid Injection Tests in Boreholes F. Rummel p. 205
- 7. Characteristics of Rock Stress Measured by Stress Relief Method in Japan Obara Yuzo and Sugawara Katsuhiko p. 245
- 8. Deformability Tests in Boreholes Helmut Bock p. 287
- 9. Geotechnics of Granitic and Schist Masses at Dam Foundations, Caverns and Tunnels J.M. Coteló Neiva and Celso Lima p. 309
- Subject Index p. 357
