

## Table of Contents

- Preface
- How to Use This Text
- Introduction
- Part 1 Materials Science and Engineering
- Section 1.2 Classes of Materials Used in Medicine
- Section 1.1 Properties of Materials
- Section 2.3 Biological Testing of Biomaterials
- Section 2.6 Applications of Biomaterials in Functional Tissue Engineering
- Part 2 Biology and Medicine
- Section 2.1 Some Background Concepts
- Section 2.4 Degradation of Materials in the Biological Environment
- Section 2.5 Applications of Biomaterials
- Section 2.2 Host Reactions to Biomaterials and Their Evaluation
- Part 3 Practical Aspects of Biomaterials
- Section 3.1 Implants, Devices, and Biomaterials: Special Considerations
- Part 4 Perspectives and Possibilities in Biomaterials Science
- Index
- Appendices
- Section 3.2 Voluntary Standards, Regulatory Compliance and Non-Technical Issues
