

Table of contents provided by Syndetics

- **Foreword** (p. vii)
- **Introduction: Biomass fuels and developing countries** (p. xi)
- **Part I The Fuels**
- **1 Bioenergy and the environment-the challenge** (p. 1)
- **2 Traditional fuels** (p. 29)
- **3 Modern wood fuels** (p. 49)
- **4 Use of agricultural residues as fuel** (p. 85)
- **5 Liquid fuels** (p. 113)
- **6 Biogas** (p. 163)
- **7 Producer gas** (p. 183)
- **8 The modern combustion of dry biomass** (p. 201)
- **Part II Effects on the Environment**
- **9 Land-use impacts** (p. 213)
- **10 Air pollution** (p. 267)
- **11 Water** (p. 287)
- **12 Health effects in developing countries** (p. 301)
- **13 Health effects in developed countries** (p. 323)
- **14 Socioeconomic aspects** (p. 361)
- **Appendix: energy and power units** (p. 395)
- **Contributors** (p. 397)
- **Index** (p. 399)
