

# Table of contents

- **Section 1 History**
- **Historical Development of Cardiopulmonary Bypass in Minnesota**
- **The Birth of an Idea and the Development of Cardiopulmonary Bypass**
- **Section II Equipment**
- **Blood Pumps in Cardiopulmonary Bypass**
- **Principles of Oxygenator Function: Gas Exchange, Heat transfer, and Operation**
- **Circuitry and Cannulation Techniques**
- **Ultrafiltration and Dialysis**
- **Mechanical Circulatory Support Devices**
- **Cardiopulmonary Bypass for Minimally Invasive Cardiac Surgery**
- **Section III Physiology And Pathology**
- **Temperature Management in Cardiac Surgery**
- **Myocardial Protection**
- **Changes in the Pharmacokinetics and Pharmacodynamics of Drugs Administered During Cardiopulmonary Bypass**
- **Embolic Events**
- **Endocrine, Metabolic, and Electrolyte Responses**
- **Cardiopulmonary Bypass and the Lung**
- **Immune System and Inflammatory Responses to Cardiopulmonary Bypass**
- **Kidney Function and Cardiopulmonary Bypass**
- **Splanchnic Visceral, Metabolic, and Glucoregulatory Effects of Cardiopulmonary Bypass**
- **Neurologic Effects of Cardiopulmonary Bypass**
- **Section IV Hematology**
- **Hemodilution and Priming Solutions**
- **The Blood-Surface Interface**
- **Hematologic Effects and Coagulopathy**
- **Coagulation Testing**
- **Anticoagulation**
- **Heparin Neutralization**
- **Pharmacologic Prophylaxis Against Post-Cardiopulmonary Bypass Coagulopathy**
- **Section V Clinical Applications**
- **Conduct of Cardiopulmonary Bypass**
- **Teamwork: A Systems-Based Practice**
- **Primum Non Nocere: Patient Safety in Cardiopulmonary Bypass**
- **Unusual Problems in Cardiopulmonary Bypass**
- **Termination of Cardiopulmonary Bypass**
- **ECMO for Respiratory Support in Adults**
- **Perfusion for Thoracic Aortic Surgery**
- **Noncardiac Surgical Applications of Cardiopulmonary Bypass**
- **Section VI Neonates, Infants, And Children**
- **Pediatric Cardiopulmonary Bypass Overview: State of the Art and Future**
- **Myocardial Protection and Preservation for Neonates and Infants**
- **Brain Injury Following Infant Cardiac Surgery and Neuroprotective Strategies**

- **ECMO for Infants and Children**
- **Circulatory Assist Devices for Infants and Children**
