

## Table of Contents

- Physical and Chemical Properties A.H. Harvey
- Mathematics in Chemical Engineering D. Ramkrishna and S.H. Tringh
- Engineering Statistics D.W. Siderius
- Thermodynamics of Fluid Phase and Chemical Equilibria K.C. Chao and D.S. Corti and R.G. Mallinson
- Fluid Flow R. Darby Heat
- Transfer K.J. Bell
- Radiation Heat Transfer Z.M. Zhang and D.P. DeWitt
- Mass Transfer J.R. Fair
- Industrial Mixing Technology D.E. Leng and S.S. Katti and V. Atiemo-Obeng
- Liquid-Liquid Extraction D.W. Tedder
- Chemical Reaction Engineering J.B. Joshi and L.K. Doraiswamy
- Distillation J.R. Fair
- Absorption and Stripping J.R. Fair
- Adsorption K.S. Knaebel
- Process Control J.B. Riggs and W. Korchenski
- Conceptual Process Design, Process Improvement, and Trouble Shooting D.R. Woods and A.N. Hrymak
- Chemical Process Safety R.W. Prugh Environmental Engineering: A Review of Issues, Regulations, and Resources and B.P. Carpenter and D.E. Watson and B.C. Carpenter
- Biochemical Engineering J.M. Lee Measuring
- Physical Properties L.F. Albright
- Selecting Materials of Construction (Steels and Other Metals) D.A. Hansen Solid
- Liquid Separation F.M. Tiller and W. Li and W. Chen
- Drying: Principles and Practice A.S. Mujumdar
- Dry Screening of Granular and Powder Materials A.J. DeCenso and N. McCauley
- Conveying of Bulk Solids F. Thomson
- Principles and Applications of Electrochemical Engineering P.N. Pintauro
- Patents and Intellectual Property M.H. Heines
- Communication F.S. Oreovicz
- Ethical Concerns of Engineers L.F. Albright
