

- **Preface** (p. xi)
- **Contributors** (p. xv)
- **List of abbreviations and symbols** (p. xxiii)
- **Chapter 1 Philosophy of Science** (p. 1)
- **1.1 Philosophy of the natural sciences** (p. 1)
- **1.2 Philosophy of the social sciences** (p. 24)
- **Chapter 2 Ethics and Scientific Conduct** (p. 33)
- **2.1 A brief introduction to ethics** (p. 33)
- **2.2 Scientific conduct and misconduct** (p. 36)
- **2.3 Misconduct and why it occurs** (p. 38)
- **2.4 Fabrication and other forms of misconduct affecting the truth claims of scientific findings** (p. 40)
- **2.5 Authorship issues** (p. 43)
- **2.6 Salami, imalas and duplicate publication** (p. 46)
- **2.7 The investigation and punishment of scientific misconduct** (p. 47)
- **Appendix 1** (p. 50)
- **Chapter 3 Ethics in Human and Animal Studies** (p. 53)
- **3.1 Introduction** (p. 53)
- **3.2 Basic principles of human research ethics** (p. 54)
- **3.3 International regulation** (p. 56)
- **3.4 The ethics of animal research** (p. 70)
- **Appendix 1 World (Medical Association Declaration of Helsinki Ethical Principles for Medical Research Involving Human Subjects** (p. 74)
- **Appendix 2 Oviedo Convention (Council of Europe, European Treaty Series 164)** (p. 80)
- **Appendix 3 Oviedo Convention-Additional Protocol Concerning Biomedical Research, Chapter I-IX (Council of Europe, European Treaty Series 195)** (p. 82)
- **Chapter 4 Research Methodology: Strategies, Planning and Analysis** (p. 93)
- **4.1 Introduction** (p. 93)
- **4.2 Your scientific problem** (p. 95)
- **4.3 More on scientific problems** (p. 97)
- **4.4 Literature, methods and techniques** (p. 97)
- **4.5 Research conditions** (p. 100)
- **4.6 Data types** (p. 103)
- **4.7 Techniques** (p. 105)
- **4.8 Repeatability, reproducibility and reliability** (p. 109)
- **4.9 Validity, effect measure and choice of statistical test** (p. 112)
- **4.10 Experimental protocol** (p. 116)
- **4.11 Experimental routine** (p. 122)
- **Chapter 5 Literature Search and Personal Reference Databases** (p. 125)
- **5.1 Information literacy** (p. 125)
- **5.2 Systematic literature search** (p. 127)
- **5.3 How to formulate a query: PICO** (p. 129)
- **5.4 Search technique** (p. 133)
- **5.5 Methodology filters** (p. 136)
- **5.6 Quality: critical appraisal** (p. 138)

- **5.7 Impact factor** (p. 140)
- **5.8 Principal bibliographic databases** (p. 145)
- **5.9 Staying up to date** (p. 150)
- **5.10 Medical and scientific internet search engines** (p. 154)
- **5.11 Personal reference databases** (p. 155)
- **Chapter 6 Methods in Molecular Biology** (p. 161)
- **6.1 Introduction** (p. 161)
- **6.2 Recombinant DNA technology** (p. 163)
- **6.3 DNA and RNA: isolation, identification, synthesis and analysis** (p. 168)
- **6.4 Practical applications of DNA/RNA technology** (p. 174)
- **6.5 Protein analyses** (p. 187)
- **6.6 Bioinformatics** (p. 195)
- **Chapter 7 Strategies and Methods of Basic Medical Research** (p. 199)
- **7.1 Introduction** (p. 199)
- **7.2 Long-term goals and specific aims** (p. 201)
- **7.3 Background and significance** (p. 205)
- **7.4 Experimental strategies and methods** (p. 207)
- **7.5 Pilot studies** (p. 207)
- **7.6 Rules for basic medical research projects** (p. 209)
- **Chapter 8 Clinical Research** (p. 213)
- **8.1 Controlled clinical trials** (p. 213)
- **8.2 Publication bias** (p. 227)
- **8.3 Estimating sample size** (p. 227)
- **8.4 'Non-inferiority' studies** (p. 234)
- **8.5 Generalization** (p. 237)
- **Chapter 9 Epidemiology: Concepts and Methods** (p. 241)
- **9.1 Introduction** (p. 241)
- **9.2 Definitions** (p. 242)
- **9.3 The role of epidemiology** (p. 243)
- **9.4 Population and sample** (p. 245)
- **9.5 Measures of disease occurrence, association, risk and implications** (p. 246)
- **9.6 Vital statistics** (p. 251)
- **9.7 Study designs of epidemiological studies** (p. 254)
- **9.8 Effect measures in epidemiological studies** (p. 261)
- **9.9 Experimental studies and randomized control trials** (p. 268)
- **9.10 Measurement error and sources of error** (p. 268)
- **9.11 Tests and validity** (p. 271)
- **9.12 Causes of disease** (p. 275)
- **9.13 Association versus causality** (p. 278)
- **Chapter 10 Qualitative Research** (p. 281)
- **10.1 Qualitative versus quantitative research** (p. 281)
- **10.2 Using qualitative research** (p. 283)
- **10.3 What qualitative research cannot be used for** (p. 284)
- **10.4 Samples in qualitative studies** (p. 285)
- **10.5 Reliability and validity** (p. 286)
- **10.6 Ethical challenges in qualitative research** (p. 287)

- **10.7 Qualitative data collection** (p. 291)
- **10.8 Triangulation** (p. 301)
- **10.9 Analyses of qualitative data** (p. 303)
- **10.10 Releasing qualitative data** (p. 306)
- **Chapter 11 Statistical Issues** (p. 311)
- **11.1 Introduction** (p. 311)
- **11.2 Effect measure, hypothesis testing and confidence interval** (p. 312)
- **11.3 Bernoulli trial** (p. 315)
- **11.4 Comparing two proportions** (p. 318)
- **11.5 Measures of association in 2 x 2 tables** (p. 323)
- **11.6 Normal distribution** (p. 329)
- **11.7 Comparison of means** (p. 332)
- **11.8 Non-parametric methods** (p. 342)
- **11.9 Regression analysis** (p. 350)
- **Chapter 12 Evidence-Based Practice and Critical Appraisal of Systematic Reviews** (p. 365)
- **12.1 Introduction** (p. 365)
- **12.2 Systematic reviews** (p. 366)
- **12.3 Critical appraisal of a systematic review: one example** (p. 368)
- **12.4 Summary** (p. 380)
- **Chapter 13 Scientific Communication** (p. 383)
- **13.1 Introduction** (p. 383)
- **13.2 The scientific paper** (p. 383)
- **13.3 Posters** (p. 410)
- **Chapter 14 Successful Lecturing** (p. 415)
- **14.1 Introduction** (p. 415)
- **14.2 Preparing the lecture** (p. 416)
- **14.3 Lecture content and form** (p. 418)
- **14.4 Manuscript** (p. 424)
- **14.5 Delivering a lecture** (p. 427)
- **Chapter 15 Guide to Grant Applications** (p. 433)
- **15.1 Introduction** (p. 433)
- **15.2 Getting started** (p. 435)
- **15.3 The postdoctoral fellow and junior scientist** (p. 437)
- **15.4 What goes into a successful grant application?** (p. 443)
- **15.5 The investigator-initiated research grant** (p. 445)
- **15.6 Multiproject grants** (p. 448)
- **15.7 International research collaborations** (p. 451)
- **15.8 The European Union's seventh Framework Programme** (p. 454)
- **15.9 Summary and perspective** (p. 456)
- **Index** (p. 457)
